INTRODUCTION

I have done my internship at DRIKNEWS. An internship is a mandatory part of the undergraduate program. DRIKNEWS is a media house where I came to learn about journalism (reporting, scripting, interviewing etc.) a lot. This media house follows journalism ethics in a strict way.

I have started my internship from Oct 17, 2022. I started my internship with a field report. I have worked on many field-reporting as I always wanted to be a reporter. Besides, I have made some poster content.

Internship is a job where I came to experience as a real journalist which is actually fruitful for me. This internship has connected me with my actual job life as a reporter. It also taught me that proper research is really important to do a good report. It was a great opportunity for me to gain knowledge about journalism. Internship helped me so much along with my theoretical studies. Finally, I completed my internship on 31st December, 2022.

EXPECTATION

My main expectation from doing an internship was to learn field reporting. I am very much fortunate as I got this opportunity to make it possible. I have learned a lot as an intern.

I also wanted to learn video editing which is actually important for video news reports. Though I didn't get much time and opportunity to learn video editing as much as reporting.

Besides, I am quite satisfied with all the work such as scripting, researching, interviewing, making questionnaires etc.

I came to learn an important aspect which was out of my expectations, adapting with the office environment. It is actually important to learn it before starting a career as a journalist

ORGANOGRAM

WORK ENVIRONMENT

The work environment of DRIKNEWS is very flexible and friendly. This is why, I came to learn many things about job of a journalist. Everything is managed properly. My supervisor was much supportive and a very good instructor. I learned a lot from him. The people around me were so independent. They were not judge mental at all. Every employee works so hard for their works. The set-up of the entire office was so much organized which used to make me mentally fresh during my work. The work environment was full of positive vibes. I felt that doing journalism is very responsible and respective job. I feel so good that I got the chance to do my internship in such a nice work environment.

TASK AS AN INTERN

I started my internship as a reporter by interviewing many people. My Supervisor used to give me a topic and I had to make proper brainstorm and research on that particular topic. After doing a lot of research my supervisor used to send me to do interviews and collect footage with my cameraperson. Then I used to make scripts on that certain topic and my editor approves. According to my script I used to direct my video editor to edit it. At the end I used to get approval from my supervisor and make a headline of the story. After all the tasks my report used to get published.

I also made some poster content where my supervisor used to give me a topic and I had to make proper brainstorm and research on that particular topic. After that I used to direct my video editor to make the poster. Then my supervisor used to approve. After these works my posters used to get published.

I want to add a really important fact about doing internship on DRIKNEWS is I used to get more opportunity to do reporting even as an intern. It gave me more experience and made my reporting skills very strong.

Project Description: Paper is an important element of our daily life. Many industries directly and indirectly depend on paper. Suddenly, in the month of November 2022, the price of paper increased severely. This price hike has a huge impact on publishers. INTERNSHIP LEARNING OUTCOME

I learned a lot from my internship. The learning outcomes are:

I learned how to work in a media place. It will be much easier for me when I will work in a workplace for real time.

I learned to work in a deadline pressure as it is common in any newsroom to work under pressure.

I learned verification in a report is a vital part of news reports. Everyone is depended on journalists to get news. It is duty of a reporter to supply correct information.

I learned that an editor plays a really important role in any kind of news. Editing is such a responsible job.

A cameraperson is one of the important employees in a media house as she/he takes footage which is strong evidence in a news report.

All over I learned that no work is less important in a media house. Each employee depends on another employee.
