INTRODUCTION

As a student of Bachelor of Social Science in Media Studies and Journalism (MSJ) Program in University of Liberal Arts, Bangladesh (ULAB) it is mandatory to have an internship or project and write a report for completing the Bachelor degree.

I chose an internship program as the last part of my four-year university journey.

Internship is a process that trains me to prepare for a changing and challenging professional career path. This internship program provides me both practical and academic training. In this report I try to include my whole working experience as an intern at Raj TV.

During my internship, I worked as a reporter. As a reporter, I got the opportunity to come closer to other senior reporters of Raj TV. I have learned a lot and innovative ways of journalism. I believe this will help me for my next career path.

They appointed me as a junior reporter. My main work was to present news, outdoor reporting, news editing, voice over, script writing etc. It was a great opportunity for me to know about the indoor and outdoor reporting and working patterns for popular television channels. I acquired knowledge through practical training. I have learned how to make a package of news for broadcast. They taught me how to collect information and improved interviewing skills. It improved my word selection skills for Bangla news. It developed my news reading skills. This internship program helped me to improve my time management, workability skills.

Working with professionals and using professional setup and equipment has taught me a lot here. As a result of my profession, I've also developed better communication and teamwork skills. These past three months have been completely new to me. During my internship, I experienced a lot and learnt a lot, and I discovered that there are numerous differences between academic learning and professional learning. I had an amazing journey learning reporting practically and I am thankful to them for allowing me to enjoy and learn each and every moment of my time there.

EXPECTATION AND OBJECTIVE

As a student of Media Studies and Journalism, I always wanted to build my career in electronic media. I wanted to work in any popular television channel. But I didn't have much experience so I chose Raj TV, an online news portal for my internship. Fortunately, I got the opportunity to do my internship there with experienced reporters.

When a person goes to a new place, he/she has expectations from there. When I joined my internship, I also had some expectations to know about how media houses run and the policies about a media house. I thank the Raj TV team for giving me the opportunity to fulfill my desire.

While starting my internship, I had some expectations from them. Some of those are:

- Improve presenting, writing and communication skills.
- Understand the language and structure of broadcast news.
- Developed professional journalism.
- To have different experience about the technical and practical knowledge of journalism.

CONCLUDING REMARKS

Raj TV has been my first professional working place. I gathered so many experiences from my internship period. Earlier, I didn't know how media houses function. Now, I can imagine myself working at any media house quite comfortably. All my colleagues, seniors and office staff were very friendly and supportive. Whenever I needed help in any work, they tried to guide me according to their knowledge and capacity. It is one of the best experiences of my life which has made me confident and skilled in the work and professional sector. I am very grateful to Raj TV for giving me this opportunity to work in their media house as an intern and hope to make the best of it in the future.

Thank You.
