PLAGIARISM DECLARATION

1. I know that plagiarism means taking and using the ideas, writings, works, or inventions of another as if they were one's own. I know that plagiarism includes verbatim copying and extensive use of another person's ideas without proper acknowledgment (which includes the proper use of quotation marks). I know that plagiarism covers this sort of use of material found in textual sources and from the Internet.

2. I acknowledge and understand that plagiarism is wrong.

3. I understand that my research must be accurately referenced.

4. This assignment is my own work, or my group's own unique group assignment. I acknowledge that copying someone else's assignment, or part of it, is wrong, and that submitting

identical work to others constitutes a form of plagiarism.

5. I have not allowed, nor will I in the future allow, anyone to copy my work with the intention of passing it off as their own work.

Acknowledgement

This is Sanjida Akter Sweety, currently an undergraduate student at the Department of Media Studies & Journalism at the University of Liberal Arts Bangladesh (ULAB). According to my talent and skills, I've chosen Digital Journalism as my major stream of study, and a minor in sustainable development. I always wanted to join a reputed development organization where I can enhance my knowledge by learning from professionals and practically apply my learning to developmental issues.

As a committed & efficient learner with a demonstrated history of working with non-governmental organizations, Apprenticeship, and outreach programs, I've first-hand experience in addressing & raising awareness regarding various developmental issues using communication, advocacy, research, and development skills. Also, I've always provided my best effort in my professional and academic life. Furthermore, much of my volunteer and educational work has been publicly acknowledged.

I got the chance to learn all of these works and achieve the experience because of my educational institute. Where I found so many amazing faculty who were always there for me, who always were free to discuss and teach anything which will be helpful for my career.

Introduction

As an undergraduate student after doing around forty-one courses from major- Digital Journalism and Minor- Sustainable Development Studies. I have experience and learned on various topics like News writing, News room, making research proposals, conducting surveys, data analysis, communication campaigns, communication through installation art, video, etc. Also got to know about the environment and sustainability.

All of the learning was amazing and productive for me. And for applying my leanings I needed hands-on experience through which I can evaluate my learning outcomes and skills. That's where my internship helps me a lot.

For my internship, I joined RedOrange Communications which is connected with the mainstream media, and development field nationally and internationally. For that my expectation from this organization was also much bigger, which I fulfilled. I've come to understand that practical experience is the best, and the internship at RedOrange Communications provided me with the practical training I needed.

I believe that Internships are essential to developing important skills that cannot be learned in a classroom. When someone is working for someone else, as opposed to for oneself as they do in school. Also, it gives the chance to earn skills like multitasking, imparting, managing various characteristics, and managing due dates.

Expectation/ Objectives

A person can prepare for the job market and acquire vital skills in their chosen professional sector through an internship. As I want to be a copywriter and a researcher in my future career that's why I chose red-orange communications where I can enhance my communication skills. And for that, I've some expectations as well, like as

- Develop my academic knowledge about communications.
- Enhance my hands-on experience from my educational organization.
- Learn to prepare scripts and concepts on a specific theme.
- I Want to know how a copywriter works.
- Earn the ability to work with a team
- Learn to work under pressure with deadlines.
- Learn with various development fields
- To work with Non-governmental NGOs and INGOs
- Know the environment of international office

Host organization

Red Orange is an international consultancy creating impact through communication strategies, program implementations, innovative communication campaigns, documentaries, animations, graphics, content, and innovative digital solutions. This organization operates in the field of climate change, water management, human rights, and advocacy in the fields of health and education, compliance, digitalization, agriculture, aquaculture, and gender. This organization started its journey in 2012.

RedOrange Communications members are a team of strategists, project managers, and creative developers. They work together on all levels ranging from creating project strategies, implementing various programs and campaigns, and finally creating effective and innovative materials and tools such as audio-visual materials, program toolkits, etc., and more often the creations also include ICT solutions.

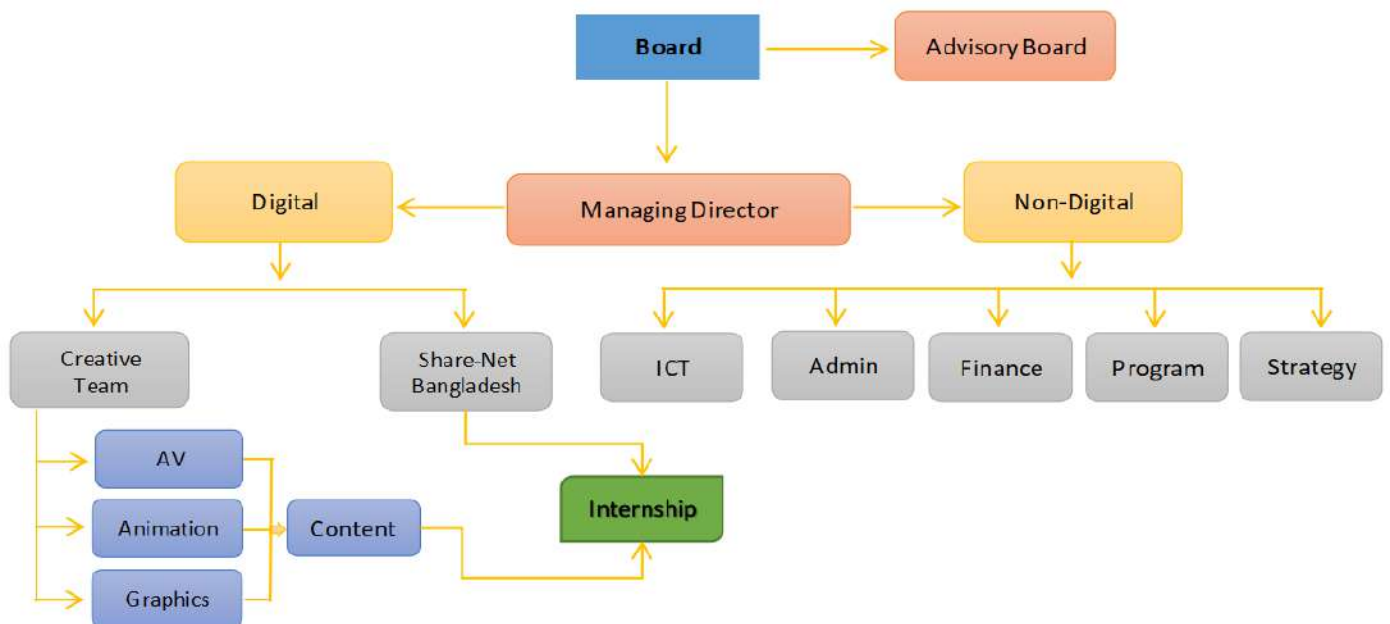

Mission

Be the best one-stop marketing and communication solution house for our partners and clients, offering strategic and creative approaches and tools for SMART implementations with impactful results.

Vision

A world where the power of marketing and communication is being utilized for a sustainable future.

Organogram of Host Organizations

Works environment & Tasks as an intern

Any organization has its own working process, visibility, and environment. RedOrange is an international company with a sustainable environment. We have our own personal desks which we can decorate according to our choice. The office has so many indoor plants in every room. And it also has different rooms for every work e.g. a meeting room, dining room, drawing room, shooting room, etc. also the office environment is gender friendly.

Every Sunday of the week every team has to do a team meeting together, through which every team leader and team members give updates about their work, and achievements which include the Managing Director, Advisor, Creative Team, ITC team, Business team, HR team, Program team, Share-Net Bangladesh team, and office stuff.

I enjoyed the office environment so much and for most of their work, they try to maintain sustainability. During my internship, my work responsibilities were

- Writing content for Share-Net Bangladesh.
- Content writing for the AV team.
- Content writing for the Creative team.
- Proofreading content, including business development plans for clients.
- Update everyone's CV on behalf of the office advisor's team.
- Translate every English concept into Bangla for the creative and AV team.
- Adding subtitles in Bangla and English for every video and graphics.
- Go out with the AV team for shooting as a content writer.
- Translated previous English content of Share-Net Bangladesh for their upcoming Bangla website.
- Assist our advisor with translating the Bangla language at any conference as she's from the Netherlands and don't understand our native language.
- Update creative pool data for the organization, which will help to find freelancers in the relative work field.

Project No 1

Project Name: Content writing and preparing Subtitles for PRIDE

Client: BRAC

Start Date: July 2022

End Date: October 2022

Project Overview:

The PRIDE project will create a model for scale, providing sustainable livelihoods for low-income urban youth in Bangladesh in partnership with the retail sector and the Government of Bangladesh. Creating decent employment opportunities in the retail sector for the most disadvantaged has huge potential for national-level scale and impact in the coming years. The pilot project by BRAC Skills Development Programme, funded by IKEA Foundation and UBS Optimus Foundation, is an opportunity to shift the dial in the retail sector by providing decent work opportunities for disadvantaged urban youth, particularly women and Persons with Disabilities, and by supporting industry standardization in major cities (Dhaka, Khulna, Chattogram, and Sylhet) in Bangladesh.

My task and responsibilities: “Content writing and preparing Subtitles” for the videos in English and Bangla both

Sub-project 1

This was a long-term project and their requirement was so high that's why I had to multitask at this project. As I was in the content team, I had to write a video story of a female retail seller who has completed her workshop from BRAC's retail sales. And for that, I had to take her interview to know the real-life story and according to the story, I wrote the video shots and Dialogue.

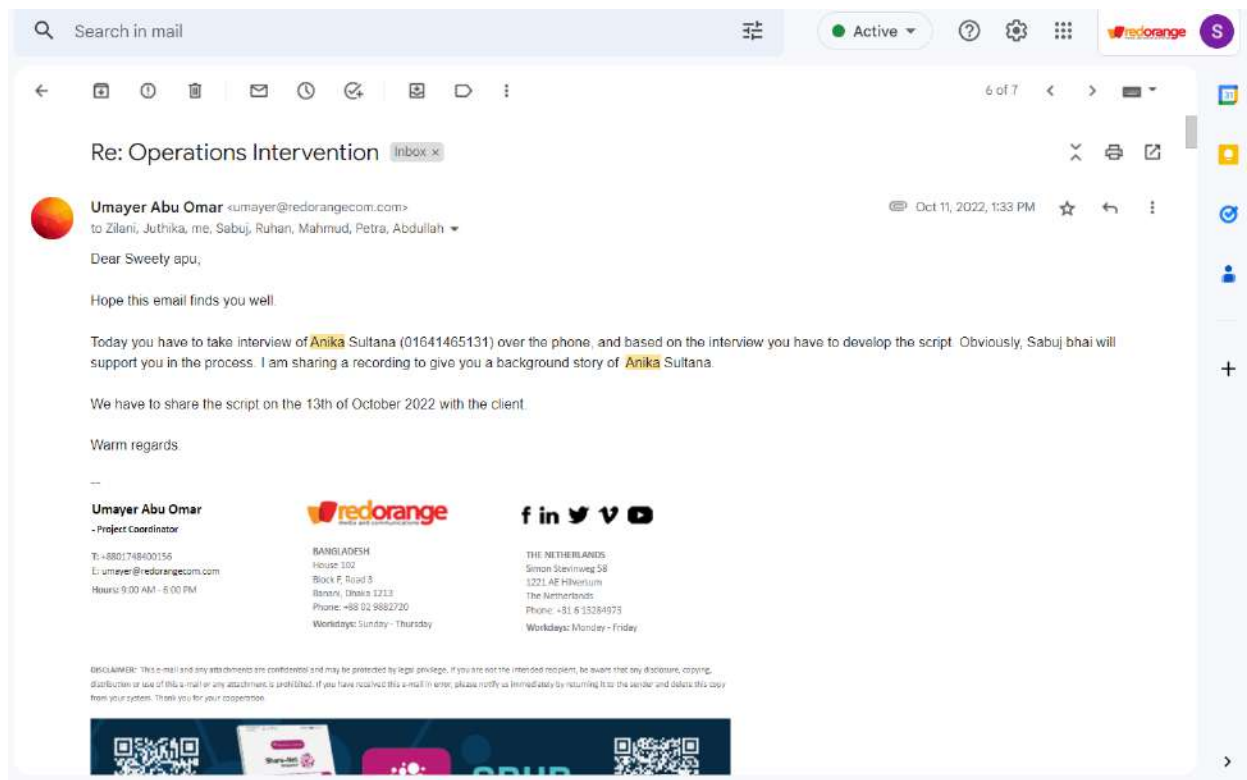

Fig 1.1: assigning me in the task

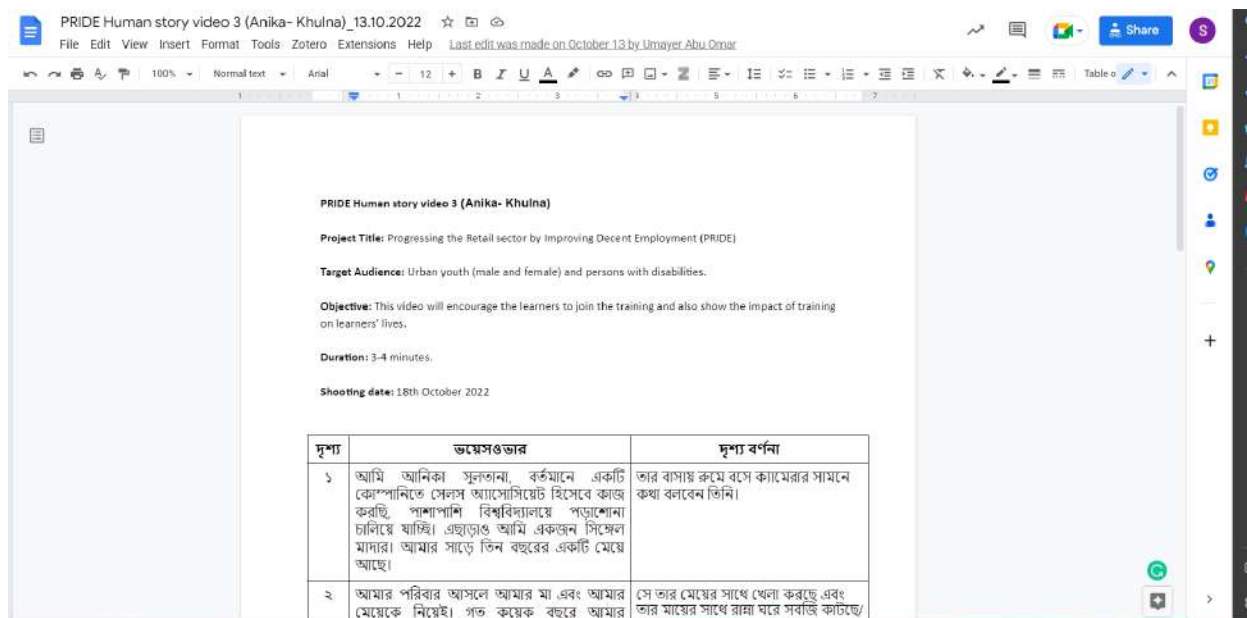

Fig 1.2: my assignment

Feedback:

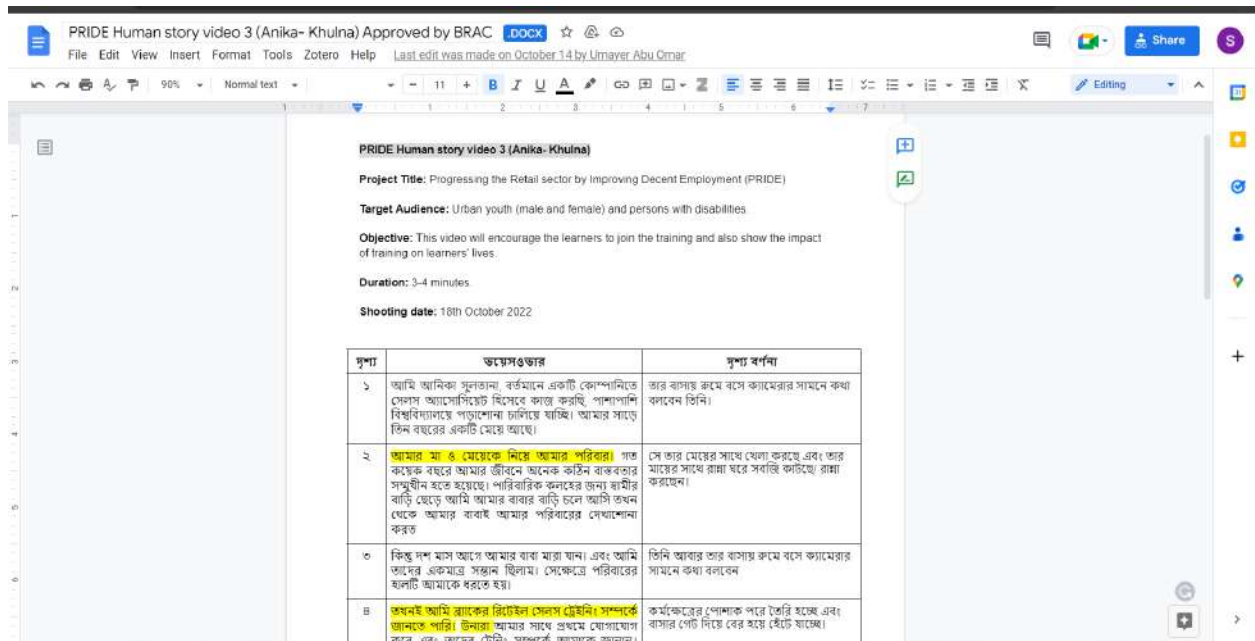

Fig 1.3: feedback on my work

Sub-Project 2:

There were 4 human pride stories of BRAC. I only wrote the 3rd one. So they gave me other stories to improve the storyline.

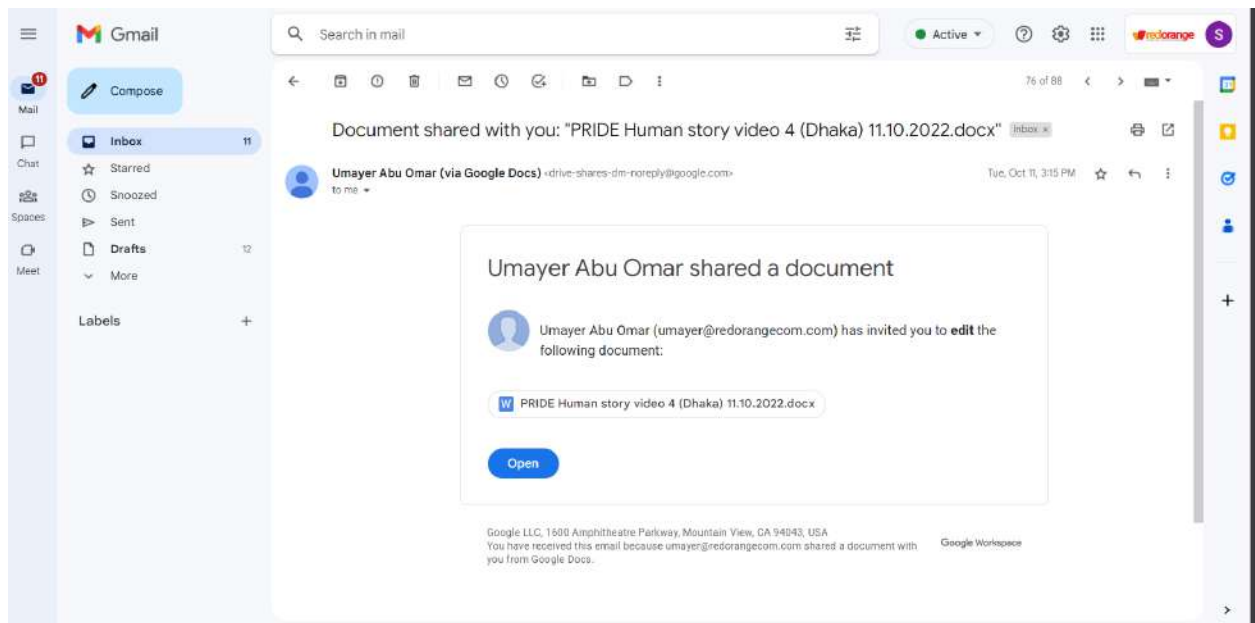

Fig 1.4: assigning me for proofreading and improving the video content

Feedback- No feedback was incorporated

Sub Project 3:

As those videos are for national and international audiences that's why we had to make subtitles of all the videos before publishing

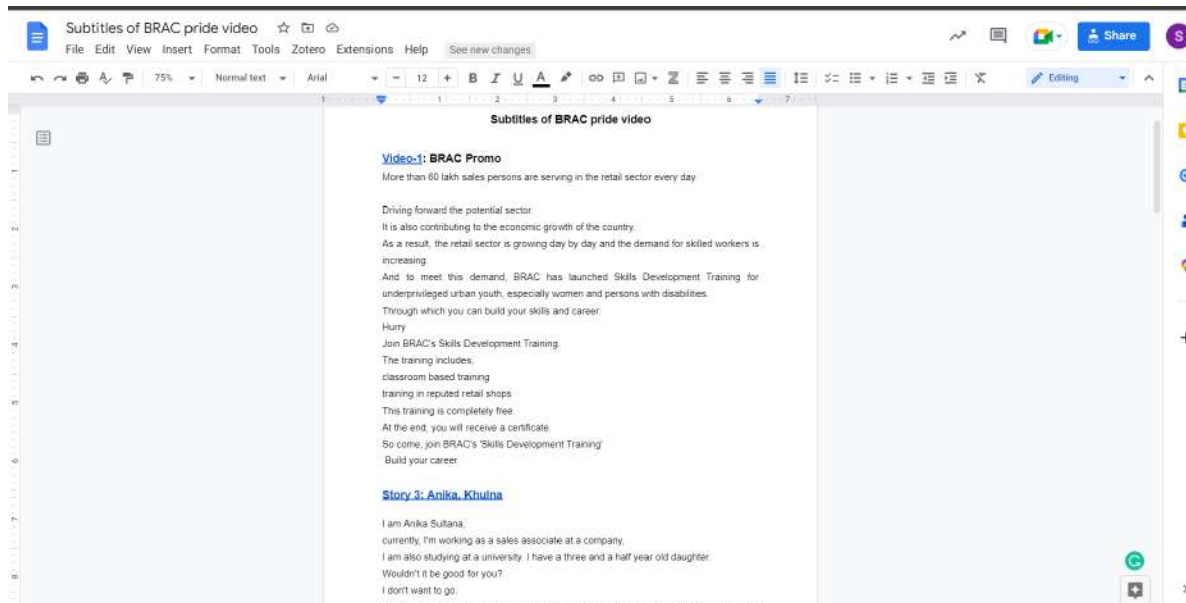

Fig 1.5: I wrote the subtitles for all the videos.

Feedback:

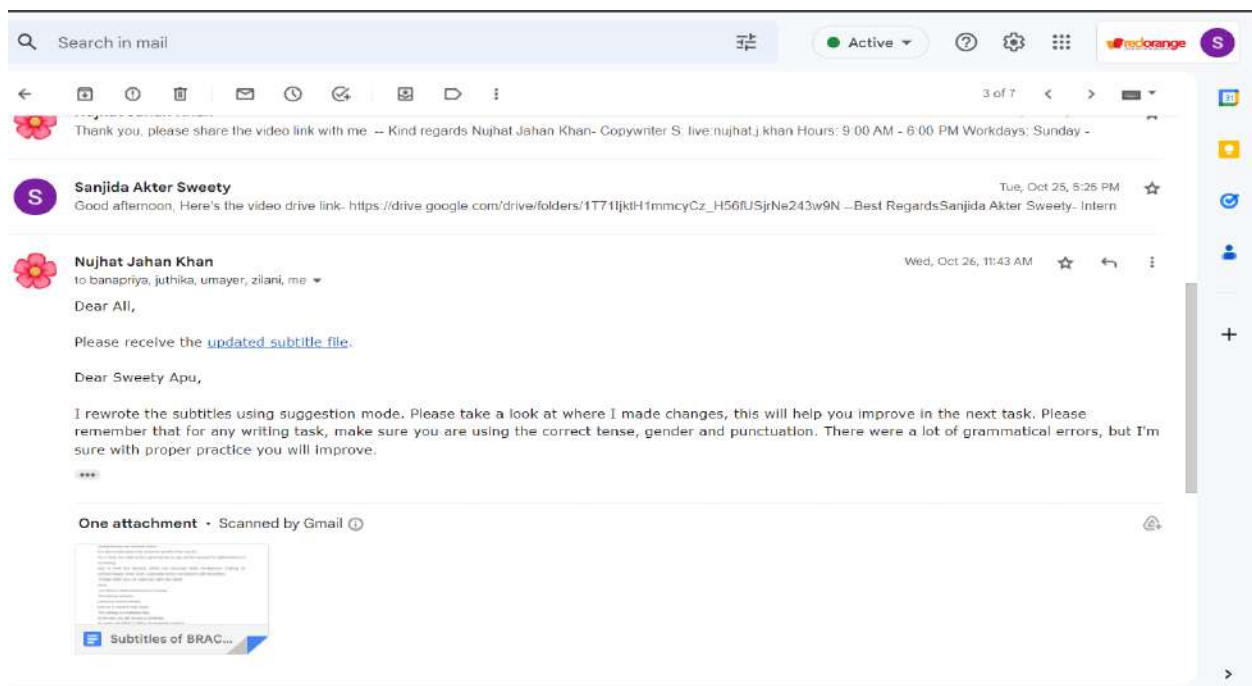

Fig 1.6: This is the feedback on my subtitles.

Challenges:

- ❖ As it was my first story writing, I was so confused about where to start.
- ❖ The story required a human interest and it was a bit difficult for me.
- ❖ I had to contact the story person several times for her life story. She was also busy with her office work so there was an issue with timing.
- ❖ I took the interview by phone. That's why it was a hassle to record her voice.

Mistakes:

- First of all, I wasn't able to include human interest in my content writing
- I was not aware of the scenario which will be appropriate for the script
- I made some mistakes in writing the subtitles, as the Bangla voiceover was so inappropriate.

Learning:

- Learned to build up a human interest story
- Learned to write dialogues
- Learned to write professional subtitles
- Learned to stay updated with multiple feedback

Project No 2

Project Name: Transcript and content writing for Bangladesh 7th National Youth Conference on Family Planning 2022.

Client: Share-Net Bangladesh

Project duration: October 12- October 18, 2022

Project Overview:

Connecting about 1000 youth advocates from every corner of Bangladesh, amplifying effective messages of SRHR and contraception (as a family planning program) In recognition of the FP2030 youth agenda, and attaching SRHR and family planning leaders and allies from around the world to generate demands for youth-centric and participatory agenda/commitments to adopt in the face of the post COVID19 pandemic or any other emergency crisis. To build the leadership capacity of youth to foster networking, and learning exchange around FP2030 commitments, government and non-government programs, focusing on family planning, SRHR, and gender-based violence across the country, considering the COVID-19 crisis.

My task and responsibilities: I was the translator and content writer of the whole project.

As my office advisor and Director of Operations “Petra Van Der Eijk” is from Netherlands so she does not understand Bangla and the conference was in Bangla. Therefore, I attended the conference as a transcriber with her and, as the content writer for that event, on behalf of Share-Net Bangladesh.

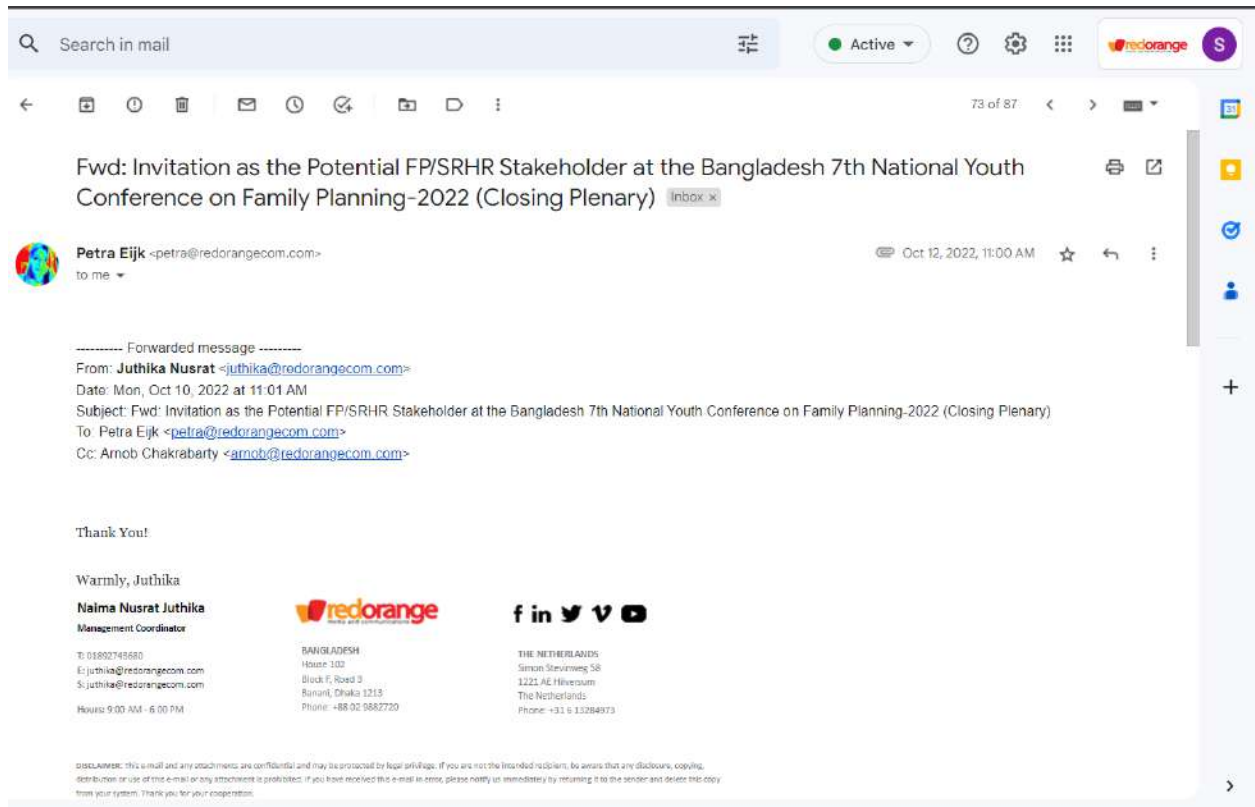

Fig 2.1: Assigning me for the event

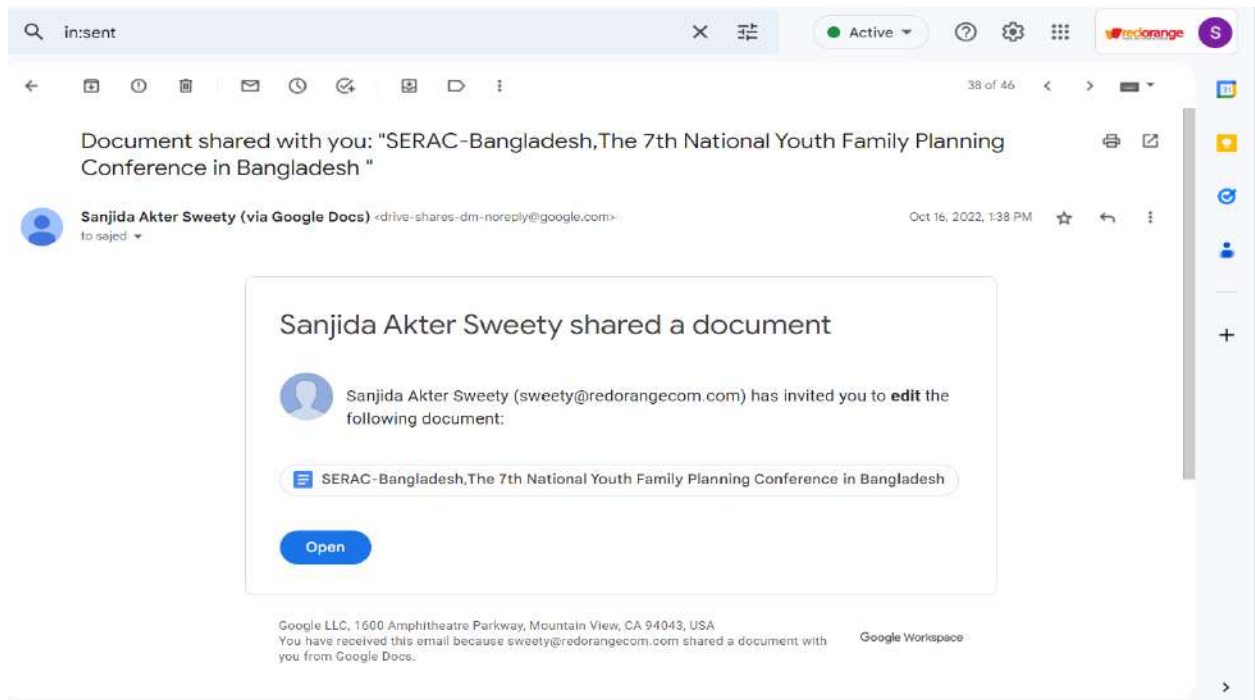

Fig 2.2: I completed the task and send it to the editor

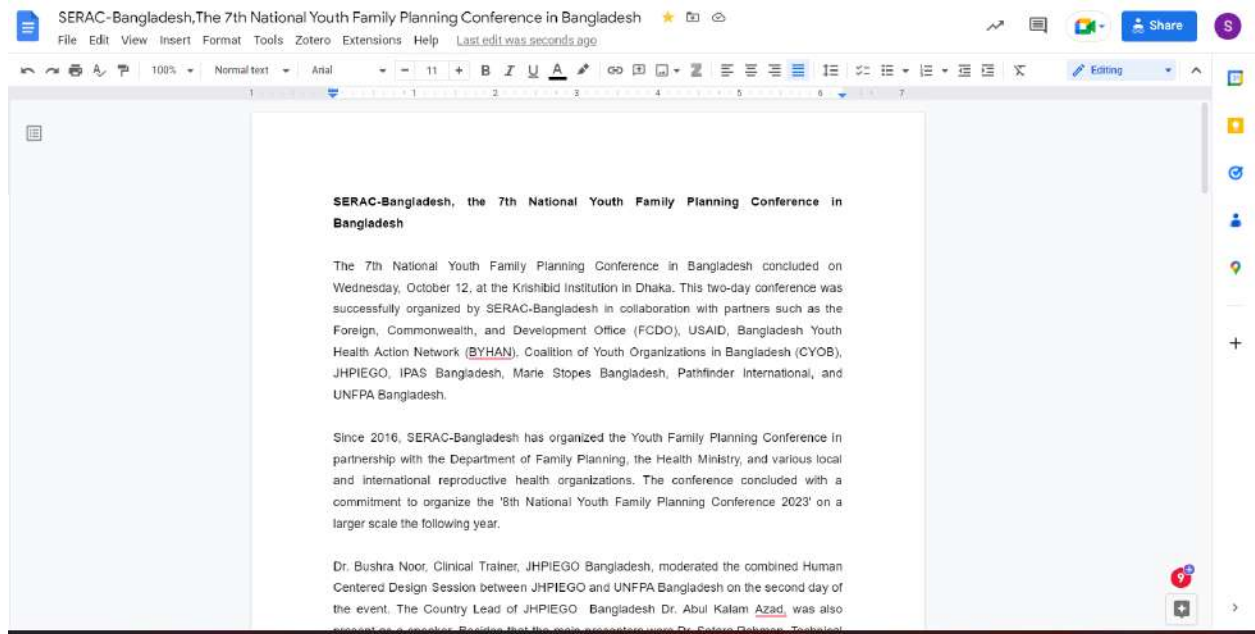

Fig 2.3: My copy of the write-up for Share-Net Bangladesh

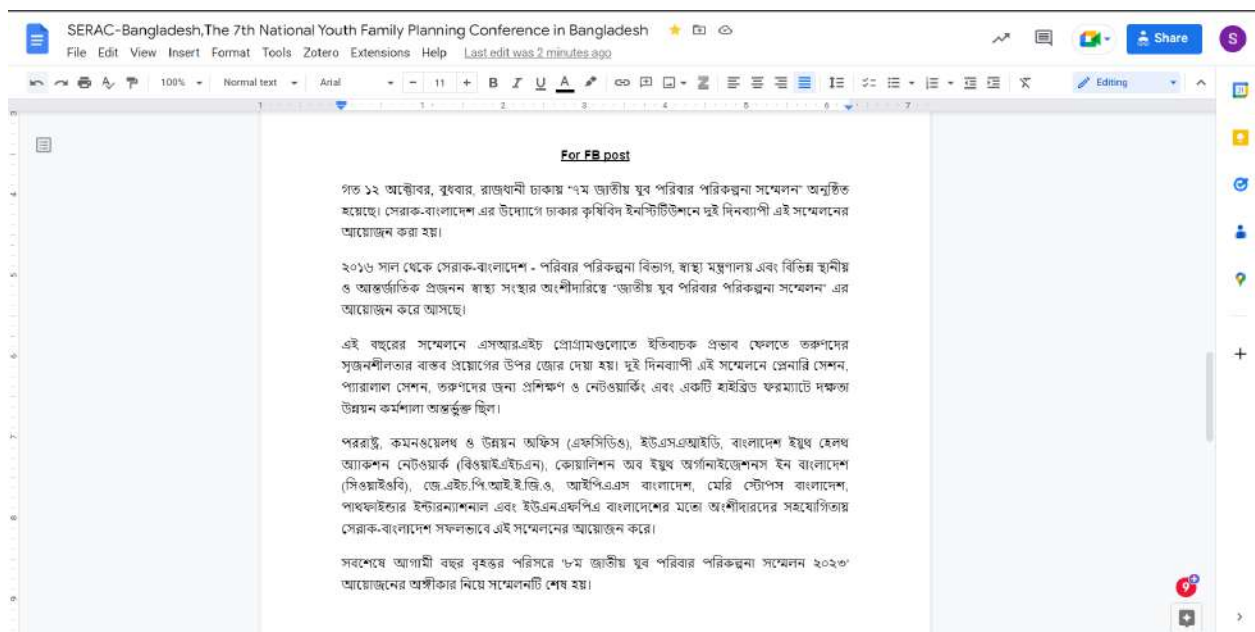

Fig 2.4: my copy for the Facebook post

Feedback:

There was a little minor feedback with my work that's why the editor edited my write-up and just uploaded it to websites. So here is the edited copy.

Fig-2.5: Share-Net post and the edited version

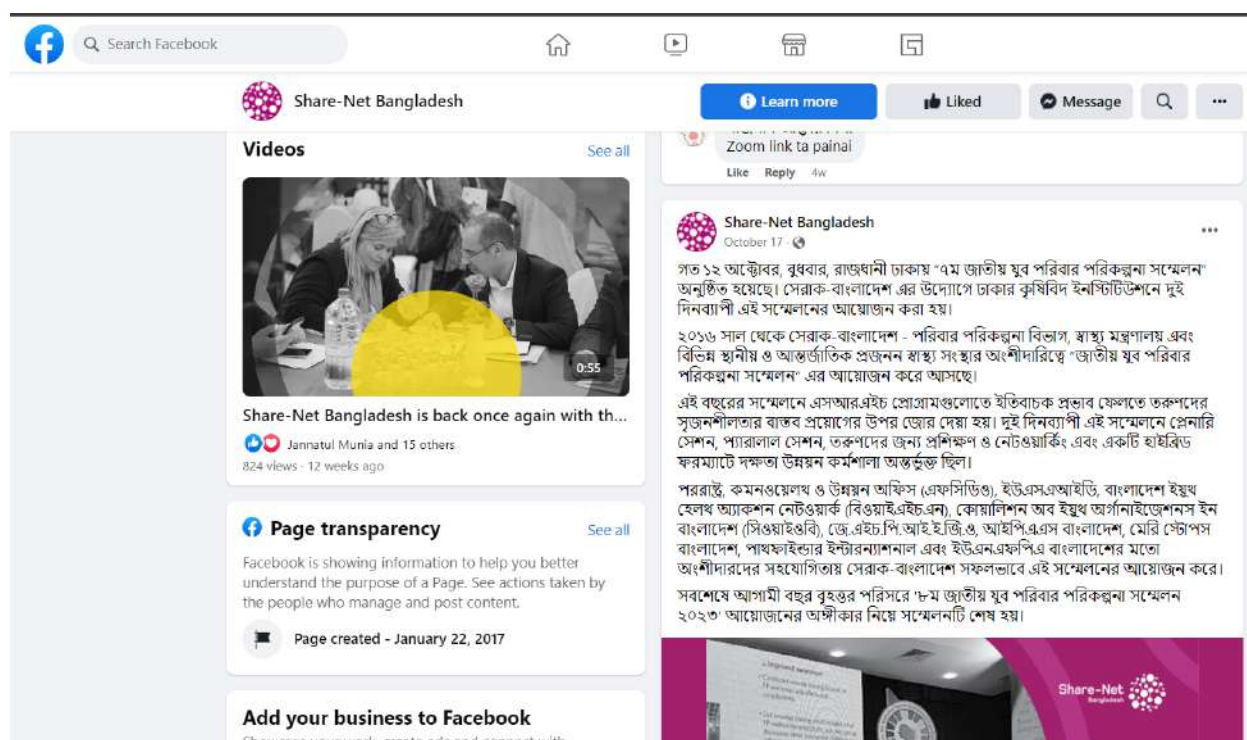

Fig-2.6: My writing for Facebook post

Challenges:

- ❖ It was my 1st time as a transcriber in any event so I was not enough confident to transcript the whole 3.5-hour event
- ❖ After the event I had to wait for the press release but our organization did not get it. So I had to wait for the news outlets to publish it.

Mistakes:

- I was not able to write some terms of that event in proper Bangla.

Learning:

- Learned to keep notes in live events
- Improved my oral skills in English
- Learned to write news for FaceBook posts

Project No 3

Project Name: Content writing for Youth Mental Health Carnival 2022

Client: Save the Children

Start Date: October 2022

End Date: November 2022

Project Overview:

“Youth Mental Health Carnival” this event is specially organized as a follow-up event of world mental health day. Which aim is to increase the awareness of mental well-being and life.

My task and responsibilities:

As I was the **“co-content writer”** for the whole project, I had to attend a meeting with our clients to know about their requirements for the event day and what messages they want to publish in flyers, banners, Facebook posts, etc.

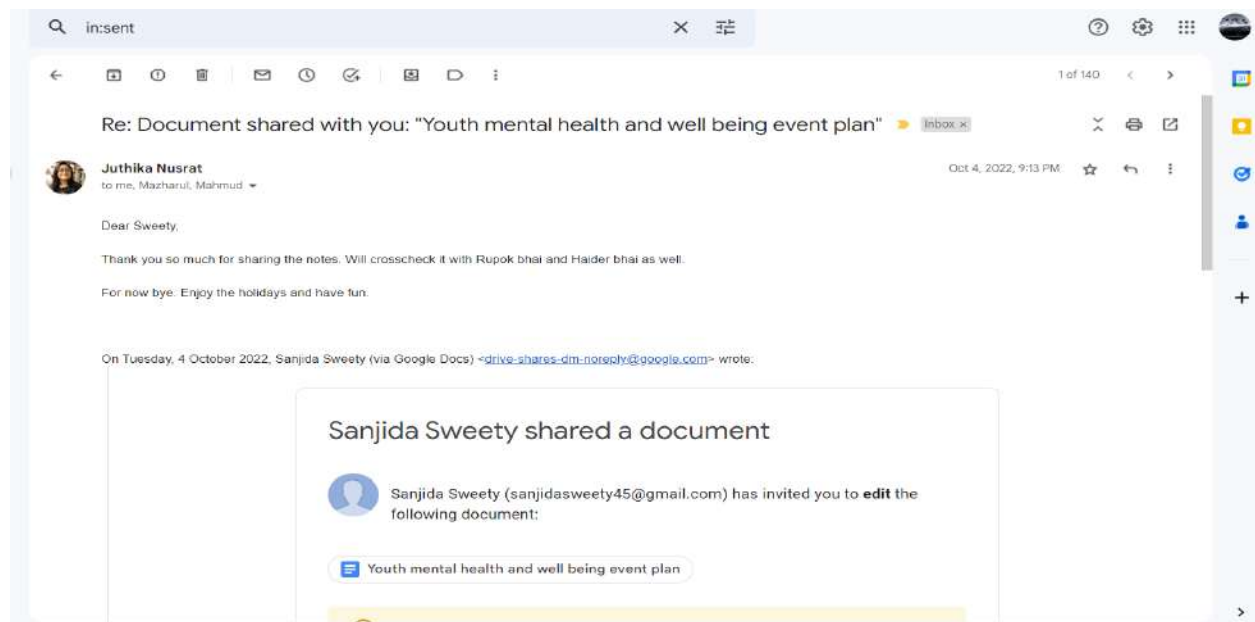

Fig-3.1: after attending a meeting with the client I uploaded all the information and shared it with my team.

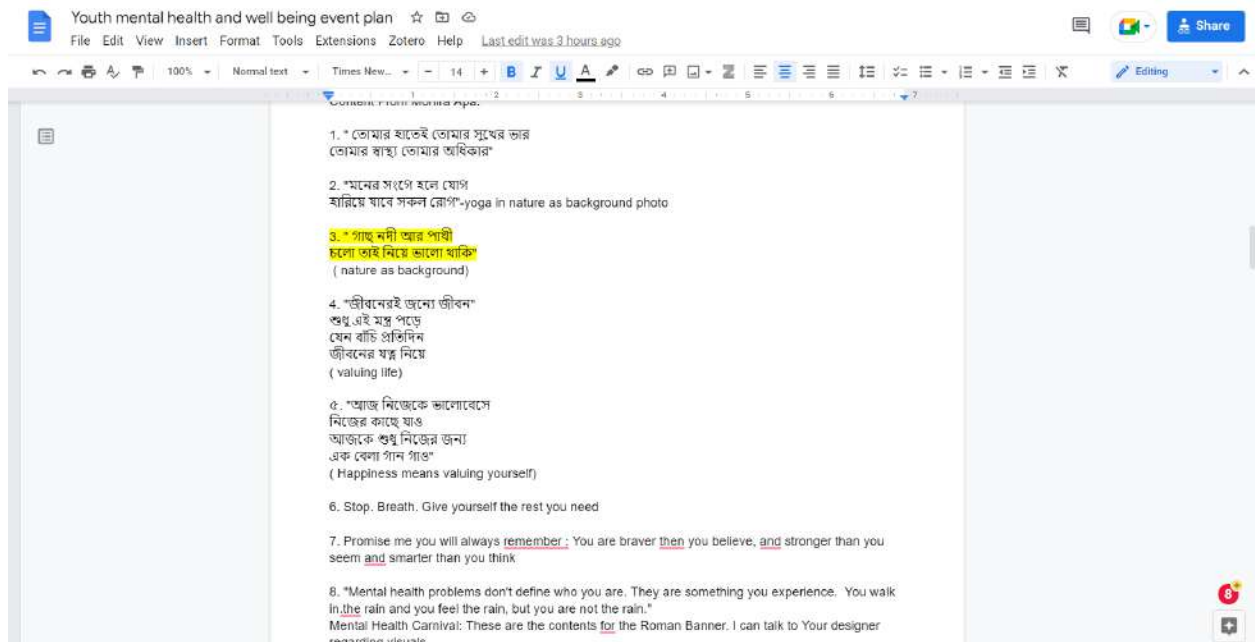

Fig 3.2: I wrote some quotes to publish according to the client's requirement

Fig 3.3: Here is more content that was made by one senior content writer and me.

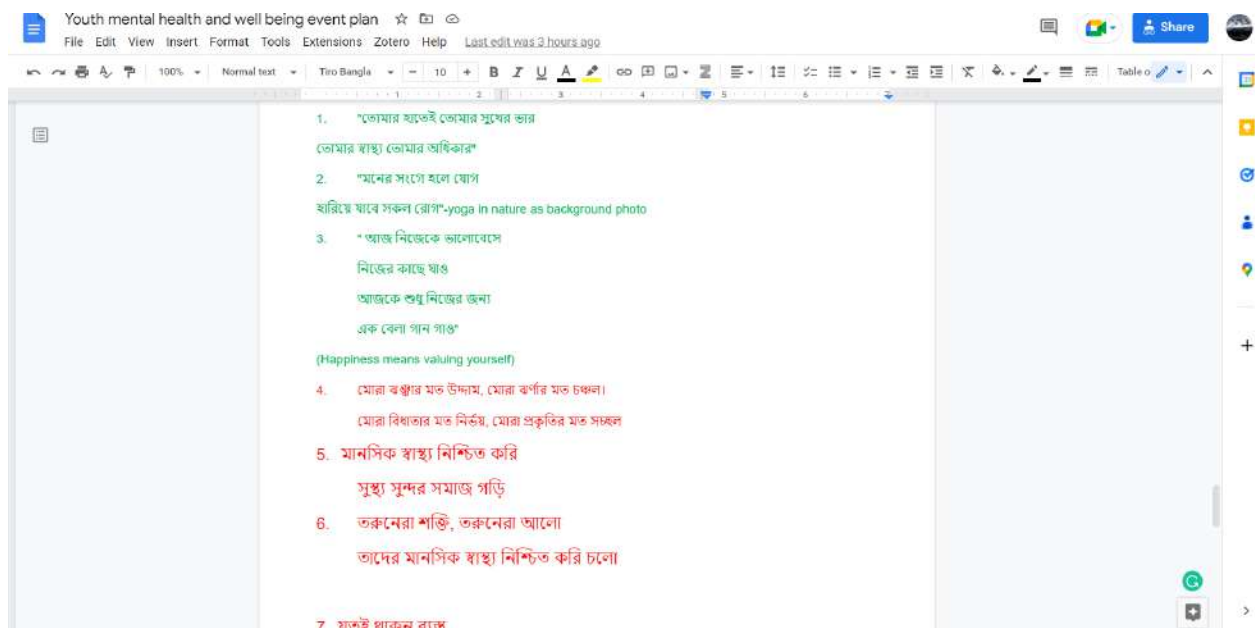

Fig 3.4: Feedback was incorporated from the client directly and our team was updating the contact continuously.

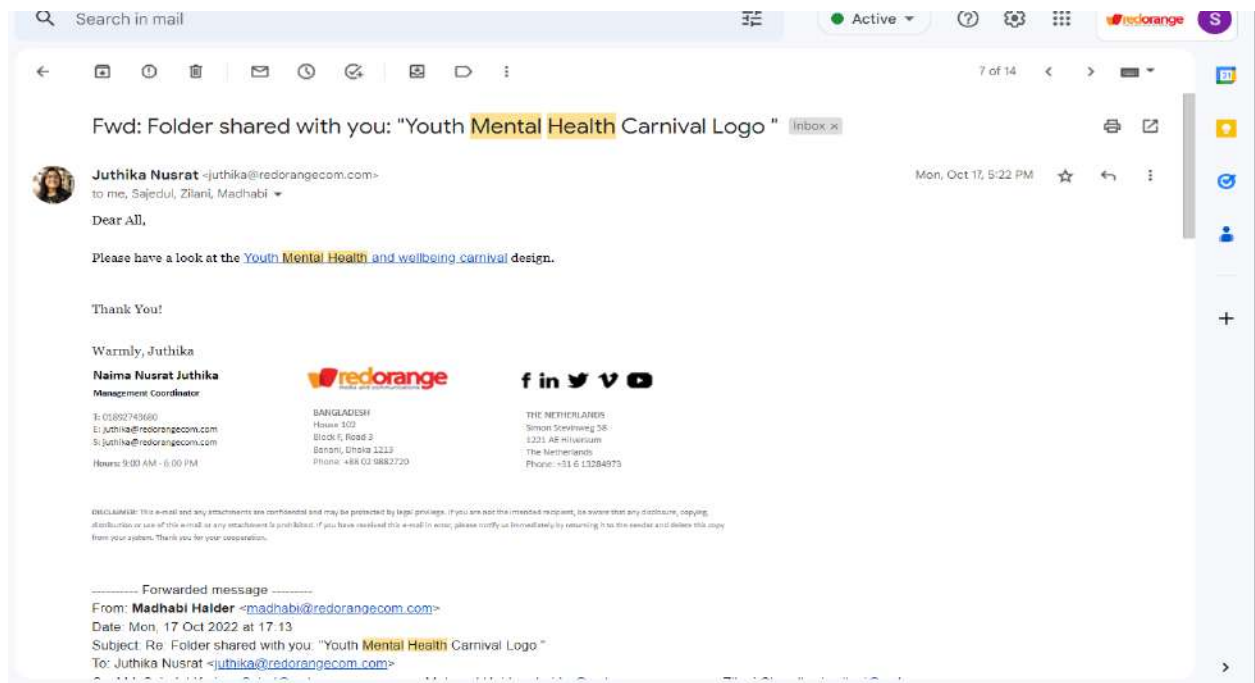

Fig 3.5: After completing everything we checked and proofread the whole thing again for the last time.

I also helped the graphics team with the word selection. As they are not very aware of writing Bangla on flyers so I cross-checked every roman banner before delivery.

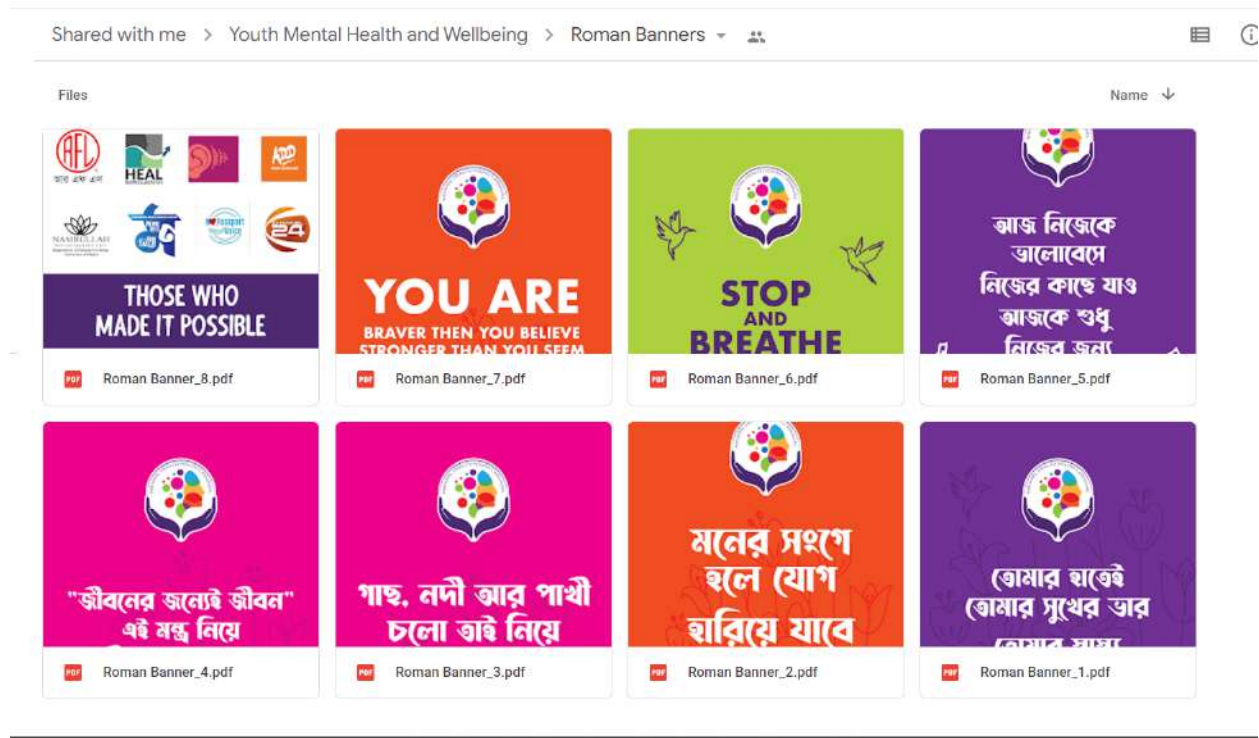

Fig 3.6: The final proofread of the Banners

Challenges:

- ❖ This was my first work as an event planner so I wasn't much used to organize or suggest new ideas to the client
- ❖ This was my first meeting with the client in person so I was not much communicative
- ❖ It took a lot of time to understand the requirement of the client
- ❖ I was not good at writing Bangla quotes for mental health and wellbeing

Feedback:

- The feedback was directly incorporated from the client to our team. Which I added to my task and responsibility.

Mistakes:

- I was not able to write a few special quotes with their theme.
- I was not able to write proper promotional post content on Facebook for that theme.

Learning:

- Learned to write Bangla small content e.g. Facebook posts.
- Stay updated with the client's feedback.
- Frequently communicated with the team.
- Instantly updated content whenever needed.

Project 4

Project Name: Content writing, News writing, Content Translating, and Proofreading for RISE

Client: Orange Knowledge

Start date: 5 May 2021

End date: Running

Project overview:

Strengthen the SRHR knowledge and skills of NGOs working with climate-affected populations, Rohingya refugees, and host communities living in the coastal belt of Bangladesh. In that project, the responsibility of RedOrange Communications is- Training module development, capacity building training, and conducting research and evidence-based advocacy. And the primary audience is 80 NGOs (health professionals) and young people

My task and responsibilities: In this project, my responsibilities were Content writing, News writing, Content Translation, Proofreading, and Google survey form translation.

Sub-Project 1:

The first step of this project was to make a guide game for the health workers and for that we made a game board and cared for the related contents. Where the health workers will play the game and according to the given situation they will answer and they will lose or earn points.

After successfully ending the RISE game with the targeted people there was a round table program in Dhaka tribune's office. Where many organizations were present at that time to share their valuable thoughts and appreciation about the project. So I had to write Bangla news about that event for Share-Net Bangladesh and write the whole conversation in English as well. The news is given below.

Sub-Project 4:

After all of the tasks we updated the client module about all the tasks we did during the project and what are the outcomes and overall review of the RISE game. So I had to translate the modules where I discussed the activities from beginning to end.

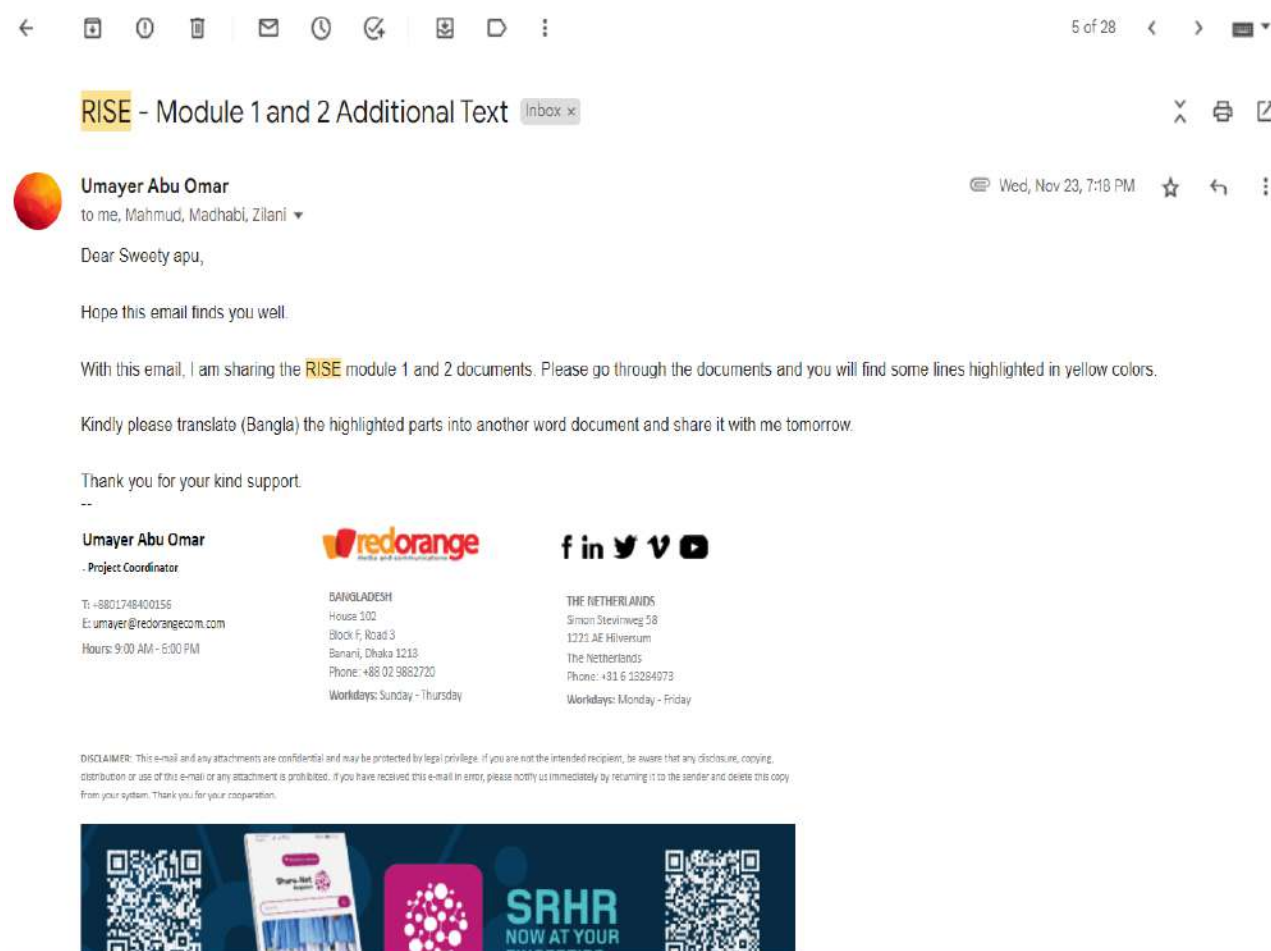

Fig 4.11: Assigning me for the 4th task

Module 2

Activity 3: Guided Fantasy – 35 min

Without sharing too much detail tell the group we will be going through a guided fantasy where everyone is expected to just sit back and listen. Play the **guided fantasy video** or read out the written guided fantasy provided in Annex 1.

-গাইডেড ফ্যান্টাসি ভিডিও

Activity 5: Rainbow animation video and reflection – 20 min

Show the video 'A Story of Yellow'. You can introduce this as a video which shows what it might be like to experience the world as someone who feels different and maybe misunderstood by their family and community. Ask participants to think about the different concepts that you have discussed today, and how this video relates to these concepts.

After the video you can open up a discussion:

- What feelings or thoughts came up when you watched the video?
- How do you think the person in the video felt?
- Do you think the story that we saw relates to the different concepts that we discussed earlier? If so, how?

কার্যকলাপ 5: রেইনবো অ্যানিমেশন ভিডিও এবং প্রতিক্রিয়া – 20 মিনিট

'এ স্টোরি অফ ইয়েলো' ভিডিওটি প্রদর্শন করুন। আপনি এটিকে এমন একটি ভিডিও হিসাবে পরিচয় করিয়ে দিতে পারেন যা, বিশ্বেকে নিয়ে একজন ব্যক্তির অভিজ্ঞতা কেমন হতে পারে তা বুঝাবে, যারা নিজেকে অন্যদের থেকে বিচ্ছিন্ন বোধ করেন এবং তাদের পরিবার এবং সম্প্রদায় তাদের ভুল বুঝে। আজকের আলোচনার বিভিন্ন বিষয় এবং এই ভিডিওটি কীভাবে এই ধারণাগুলির সাথে সম্পর্কিত, এসব নিয়ে অংশগ্রহণকারীদের আপনি চিন্তা করতে বজার।

ভিডিওটি দেখার পরে, আপনি একটি আলোচনা শুরু করতে পারেন:

- আপনি যখন ভিডিওটি দেখেছেন তখন কী অনুভূতি বা চিন্তা এসেছে?
- ভিডিওতে থাকা ব্যক্তিটির অনুভূতি কেমন ছিল বলে আপনি মনে করেন?
- আপনি কি মনে করেন যে গল্পটি আমরা দেখেছি তা আগে আলোচিত অন্য ধারণার সাথে সম্পর্কিত? যদি তাই হয়, তাহলে কীভাবে?

Fig 4.12: During the process of my 4th task

Challenges:

- ❖ This project included every department of our office so I had to work with every team which was a bit challenging for me.
- ❖ During the translation I was not aware of some appropriate Bangla words for which I had to search on many platforms for the appropriate words.

Mistakes:

- > At some point I couldn't use appropriate words in the right place regarding Gender.
- > For miscommunication I got a little bit late for the delivery of a task.

Learnings:

- Learned appropriate words which go with SRHR
- Learned to develop content regarding SRHR
- Enhanced the knowledge about creating innovative ideas
- Increased the ability to work with a team
- Learned to maintain a tight schedule and work under pressure during a task

Project 5

Project Name: Translation and making Subtitle for “Urban Management of Internal Migration due to Climate Change” (UMIMCC)/ “Urban Management of Migration and Livelihood” (UMML).

Client: GIZ

Start date: October,2022

End date: November,2022

Project overview:

RedOrange Media and Communications developed an animation to describe the implementation of the Social Labs model in Bangladesh by GIZ, in cooperation with Caritas. This initiative is part of the “Urban Management of Internal Migration due to Climate Change” (UMIMCC)/ “Urban Management of Migration and Livelihood” (UMML) project. And the targeted audience was all relevant stakeholders like political decision-makers, development organizations, academics, researchers, students, and GIZ staff.

My task and responsibilities: In this project, my task was to translate the audio and make subtitles in Bangla for an animation video.

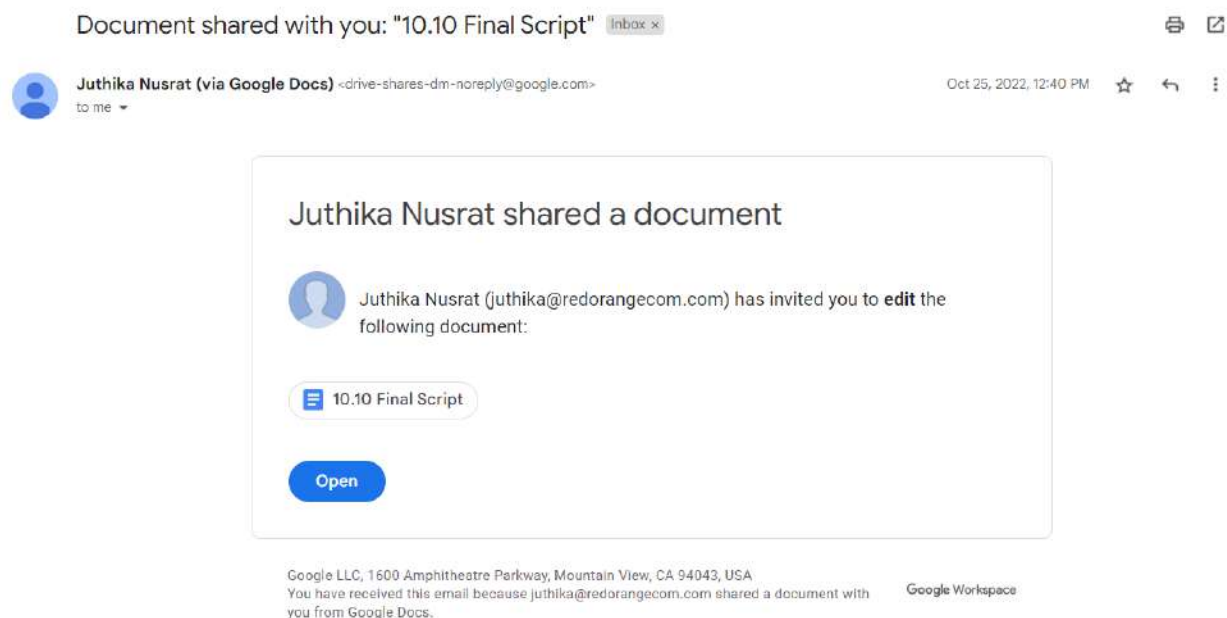

Fig 5.1: Assigning me to translate the audio script

4	Public services  Facilities  	Unlike a science lab, Social Labs bring in ideas from different disciplines to find solutions for social challenges. Let's give you an example: In Bangladesh, millions of people are being forced to leave their rural homes because of the effects of climate change. So they migrate to cities to settle in informal urban settlements, called slums, where living conditions are poor. Life in slums is not easy. With lack of access to public services, facilities, and income opportunities, every day becomes a challenge. The social labs try to solve these problems to improve the lives of the residents. This is where the UMIMCC / UMML project comes in. The project aims to improve the livelihoods of climate migrants, urban vulnerable poor and EU returnees, in collaboration with the Ministry of Social Welfare, the Department of Social Services and the respective local governments. In cooperation with Caritas Bangladesh	বিজ্ঞান ল্যাবের তুলনায়, সোশ্যাল ল্যাব জ্ঞানের বিভিন্ন শাখা থেকে সামাজিক সমস্যাগুলোর সমাধানের জন্য তত্ত্ব গ্রহণ করে। চলুন, একটি উদাহরণ দেয়া যাক: জলবায়ু পরিবর্তনের প্রভাবে বাংলাদেশে লাখ লাখ মানুষ তাদের গ্রামীণ বাড়িঘর ছেড়ে চলে যেতে বাধ্য হচ্ছে। তারা শহরে স্থানান্তরিত হয়ে অস্থায়ী আবাস বা বসতিতে থাকা শুরু করে, যেখানে বসবাসের অবস্থা খুব করুণ। বস্তির জীবন মোটেই সহজ নয়। নাগরিক পরিষেবা, সুযোগ-সুবিধা এবং আয়ের সুযোগের অভাবে বস্তির প্রতিটি দিনই কষ্টসাধ্য হয়ে ওঠে। সোশ্যাল ল্যাব এই সমস্যাগুলো সমাধান করার মাধ্যমে সেখানকার বাসিন্দাদের জীবনকে উন্নত করার চেষ্টা করে। এর ফলেই ইউএমআইএমসিসি/ ইউএমএমএল প্রকল্পের শুরু হয়।

আপনি বিজ্ঞান এবং গবেষণা ল্যাবগুলো র কথা শুনেছেন যা আমাদের জীবনের সবচেয়ে জটিল চ্যালেঞ্জগুলো র সমাধান খুঁজে বের করার চেষ্টা করে।

কিন্তু আপনি কি সোশ্যাল ল্যাবের কথা শুনেছেন?

একটি বিজ্ঞান ল্যাবের বিপরীতে, সোশ্যাল ল্যাবগুলো সামাজিক চ্যালেঞ্জগুলো র সমাধান খুঁজে বের করার জন্য বিভিন্ন শাখা থেকে ধারণা নিয়ে আসে।

আসুন আমরা আপনাকে একটি উদাহরণ দিই:

বাংলাদেশে জলবায়ু পরিবর্তনের প্রভাবে লাখ লাখ মানুষ তাদের গ্রামীণ বাড়িঘর ছেড়ে চলে যেতে বাধ্য হচ্ছে।

সুতরাং তারা অনানুষ্ঠানিক শহরে বসতিতে বসতি স্থাপনের জন্য শহরে স্থানান্তরিত হয়,

যাকে বস্তি বলা হয়, যেখানে বসবাসের অবস্থা খারাপ।

বস্তির জীবন সহজ নয়।

সরকারী পরিষেবা, সুযোগ-সুবিধা এবং আয়ের সুযোগের অ্যাক্সেসের অভাবের সাথে সাথে, প্রতিটি দিন একটি চ্যালেঞ্জ হয়ে ওঠে।

সামাজিক ল্যাবগুলো বাসিন্দাদের জীবনকে উন্নত করার জন্য এই সমস্যাগুলো সমাধান করার চেষ্টা করে।

এখানেই জলবায়ু পরিবর্তনের কারণে অভ্যন্তরীণ অভিবাসনের নগর ব্যবস্থাপনা (ইউএমআইসিসি) অথবা

আরবান ম্যানেজমেন্ট অফ মাইগ্রেশন অ্যান্ড লাইভলিহুডস (ইউএমএমএল) প্রকল্প আসে।

Fig 5.4: Adding Bangla subtitle for the Animation

Feedback: No feedback was incorporated.

Challenges:

- ❖ I did not face any challenges during that task

Mistakes:

- I wrote some words which were not appropriate for the same meaning

Learnings:

- Learned about the development training modules for development and empowered the people of underdeveloped areas.
- Enhanced my knowledge about using appropriate Bangla words.

Project 6

Project Name: Writing Subtitles for ERUP Documentary

Client: GIZ

Start date: September 2022

End date: November 2022

Project overview:

German development cooperation promotes socially equitable, climate-friendly, and resilient urban development – especially in rapidly growing small and medium-sized cities. The inclusive development of cities can be an opportunity for the urban poor to improve their living conditions and create better opportunities for future generations. City Administrations need to work to build the resilience of the urban poor against the impacts of climate change and also to achieve the targets of the Sustainable Development Goals (SDGs).

My task and responsibilities: My task in that project was to add subtitles to the documentary video.

Cities Challenge 2.0

Enhancing resilience of urban poor,

is in the process of making lives easier for people like Shuma and Reshma who arrived in Satkhira for a better quality of life.

Did you make this garden?

For who?

For myself..

For yourself?

You got this to grow vegetables on your roof?

Anando, a non-government organisation, has been working for a long time to help the poor people in Bangladesh.

With support from GIZ, Anando is implementing the Enhancing Resilience of Urban Poor (ERUP) Project in the Gaurokanda community, Satkhira.

We started this project with 150 beneficiaries.

We selected 150 families

We formed them into ten groups,

Fig 6.3: The video script from Bangla to English

And initiated various activities with them.

Firstly, we worked to encourage growing vegetables at home,
we gave them different types of seeds,
In Kharif I season, and again in Kharif 2 season,
we gave different seeds and saplings.

They planted the vegetables, consumed them,
distributed among their relatives, and sold them.
They are selling the vegetables
and saving a part of their profit.
To address the problem of heated homes during summers,
training and workshops were provided to transform
rooftops and backyards into vegetable gardens.
This solution will not only reduce home temperatures,
but also provide families with nutritious food.

I received training from the office.
They gave us seeds, cutters, gunny bags and fertiliser.
Then I planted the seed with
six parts of soil and one part of sand.

Fig 6.4:The video script from Bangla to English

Despite some challenges we are working here
with some innovative ideas, so that we can achieve the project goal.
6.28 - 6.30 requesting to remove this part, because what he says is not understandable.
The ERUP project is on its way to bring solutions
for the urban poor who came to cities to build a better life
for them and their children.
Within a few more months, these people will have the capacity and resources
to build their own resilience to the effects of climate change.

With GIZ's supervision ~~By the supervision of GIZ, Such~~
 a beautiful vegetable cultivation project is going on in my Gourgerakanda ward-5.
 It is very good that poor people are also earning a living by selling vegetables and they are also able to provide nutritious
 food to their children.

Then on one hand their nutritional needs are fulfilled and on the other hand they are financially benefited.

And one element of this project is that they are now involved in the savings
 They are now saving as much as they can each week. This savings will serve as their friend in the days of trouble. That
 means the work is going very well.
 It was observed that often, in spite of urban development, spaces remain abandoned and unused, like this park. ERUP

Project 7

Project Name: News Writing for Share-Net Bangladesh Training

Client: Share-Net Bangladesh

Start date: 4th December 2022

End date: 6th December 2022

Project overview:

This training was for helping young people to improve their capacities to communicate, create awareness, and influence policy and practice according to SRHR and gender within their professional capabilities. This was a 2-day long workshop with four different sessions. Each session was facilitated by highly experienced professionals and experts with interactive exercises to build the capacity of the participants. For that session, people from different development backgrounds were present as representatives of their organizations. They also received training certificates at the end of the two days workshop.

My task and responsibilities: I was a trainee in the workshop and a news writer for that project.

Sub-project 1

I attended there on behalf of RedOrange Communications and participated in those sessions. Also, as RedOrange was the organizer so I also had to complete some duties as an organizer at some points. For example, taking everyone's attendance, taking care of their lunch and snacks routine, and after lunchtime, if everybody has reached properly at the session.

Sub-project 2

After the workshop, I wrote news for Share-Net Bangladesh in English and Bengali. The English writeup was published on their website and the Bangla ones will be published after launching their Bangla version on the website.

Some pictures of my work are given below-

Feedback: There was some feedback incorporated from the content writer of Share-Net Bangladesh.

SBCC Training on SRHR and Gender 2022

Share-Net Bangladesh has organized a two-day long "Social & Behavior Change Communication training session on SRHR & Gender" hosted by RedOrange Communications.

In the two days session, the training was divided into four topics which were covered by four different field specialists.

The 1st session of the first day was taken by Ms. Khaleda Yasmin, National Coordinator (FPF), Family Planning-Field Services Delivery (FP-FSD) of the Directorate General of Family Planning (DGFP), on "Brainstorming Concepts - SRHR and Gender".

She discussed various aspects of SRHR in the context of different genders. She also emphasized more extensive study on Male SRHR issues and formulating SBCC tools to address those issues at the "SBCC Training on SRHR & Gender" of Share-Net Bangladesh.

Fig: Feedback from the content writer of Share-Net Bangladesh

In the 1st session of the second day of SBCC Training on SRHR & Gender, there was a comprehensive session on the "Theory & Practice of SBCC in Social Development" by Mr. Arnob Chakrabarty, Managing Director of RedOrange Communications. He conducted some practical demonstration of SBCC theories and shed light on their impact on social development concepts.

And the 2nd session was on "SRHR & Gender Sensitive Branding" by Mr. Mahmud Haider, Creative Director of RedOrange Communications. He pointed out the core notions of Branding elements like: logo, font, color, mission, vision, etc. and why they are important to reflect the organizations overall brand identity.

শেয়ার-নেট বাংলাদেশ দ্বারা সংগঠিত, রেডঅরেঞ্জ কমিউনিকেশন দুই দিনব্যাপী "এসআরএইচআর এবং জেন্ডার বিষয়ে সামাজিক ও আচরণ পরিবর্তন যোগাযোগ" প্রশিক্ষণ সেশন আয়োজন করে।

গত ৪-৫ ডিসেম্বর, ২০২২, দুই দিনব্যাপী প্রশিক্ষণটি, চারটি ভিন্ন সেশনে বিভক্ত ছিল যা চারজন বিশেষজ্ঞদের দ্বারা পরিচালিত হয়।

প্রথম দিনের প্রথম সেগমেন্টটি ছিল- "ব্রেনস্টর্মিং কনসেপ্ট - এসআরএইচআর এর ফ্যামিলি প্ল্যানিং" এবং পরিচালিত করেছিলেন "মিসেস খালেদা ইয়াসমিন", জাতীয় সমন্বয়কারী (এফপিএফ), ফিল্ড সার্ভিসেস ডেলিভারি (এফপি-এফএসডি), পরিবার পরিকল্পনা অধিদপ্তর (ডিজিএফপি)।

তিনি বিভিন্ন লিঙ্গের প্রেক্ষাপটে এসআরএইচআর এর বিভিন্ন দিক নিয়ে আলোচনা করেন। তিনি শেয়ার-নেট বাংলাদেশের "এসআরএইচআর এবং লিঙ্গ সম্পর্কিত এসবিসিসি প্রশিক্ষণ"-এ পুরুষ এসআরএইচআর সমস্যাগুলির উপর আরও বিস্তৃত অধ্যয়ন এবং এই সমস্যাগুলি সমাধানের জন্য এসবিসিসি সরঞ্জামগুলির প্রণয়নের উপর জোর দেন।

এবং প্রথম দিনের দ্বিতীয় অধিবেশনে, ইউল্যাব মিডিয়া স্টাডিজ অ্যান্ড জার্নালিজম (এমএসজে) ডিপার্টমেন্ট এর সিনিয়র লেকচারার "মুহাম্মদ আমিনুজ্জামান", এসআরএইচআর এবং জেন্ডারকে প্রভাবিত করে, এমন যোগাযোগের মৌলিক বিষয়গুলি উপস্থাপন করেন।

তার আলোচনায় তিনি মৌলিক যোগাযোগের মডেলগুলির একটি বিচিত্র পরিসর এবং সেগুলি কীভাবে এসআরএইচআর এবং জেন্ডার সমস্যাগুলি মোকাবেলা করতে পারে তার প্রয়োজনীয়তা নিয়ে কথা বলেন।

প্রশিক্ষণের দ্বিতীয় দিনের প্রথম সেশনে, "সামাজিক উন্নয়নে এসবিসিসি এর তত্ত্ব এবং অনুশীলন" বিষয়ে একটি বিস্তৃত সেশন করেন "জনাব অর্ণব চক্রবর্তী", ব্যবস্থাপনা পরিচালক, রেডঅরেঞ্জ কমিউনিকেশনস।

এবং ২য় সেশনটি ছিল "এসআরএইচআর এবং জেন্ডার সেনসিটিভ ব্র্যান্ডিং" এর উপর, যার পরিচালক ছিলেন, "জনাব মাহমুদ হায়দার", ক্রিয়েটিভ ডিরেক্টর, রেডঅরেঞ্জ কমিউনিকেশন।

রেডঅরেঞ্জ কমিউনিকেশনের ডিরেক্টর-অপারেশনস- "মিস পেট্রা ভ্যান ডের এইক" এবং শেয়ার-নেট বাংলাদেশের সমন্বয়কারী "জান্নাতুল মুনিয়ার" সাটিফিকেট বিতরণের মাধ্যমে অনুষ্ঠানটি শেষ করেন।

Fig 7.7: The Bangla writeup of that event

Challenges:

- ❖ This project was about gender and social behavior change, which I was not aware of before. So I faced difficulties with the short-term words which they were using during the session.
- ❖ There were people from 16 different organizations and I didn't know their organizational work and responsibilities.

Mistakes:

- I was not aware of the terms and Abbreviations of that professional words.
- I did not run any background study before the workshop.

Learnings:

- Learned many short terms and meanings about SRHR and SBCC.
- Enhanced knowledge about writing event news.
- Learned about the process and outcome of Social and behavioral change Communication.
- Got to learn about how we can implement a change for the people at the root level.
- Acquired knowledge about those organizations which are currently working with SRHR, GVB, and SBCC.

Project 8

Project Name: Content writing and Translating News for Share-Net Bangladesh.

Client: Share-Net Bangladesh

Start date: 2015

End date: Ongoing

Project overview:

Share-Net International, a knowledge platform specializing in sexual and reproductive health and rights, has its national center in Bangladesh. Share-Net The first country hub for Share-Net International is Bangladesh, which draws on decades of experiences and initiatives in the area of sexual and reproductive health (SRHR), notably by placing SRHR at the center of human rights.

Share-Net Bangladesh aspires to unite Communities of Practice (CoP) made up of social and medical researchers, practitioners in development, healthcare professionals, government officials, and legal experts so that they may collaborate and discover answers to pressing problems. RedOrange Communications is The hosting company for Share-Net Bangladesh.

My task and responsibilities: I worked as a content writer in Share-Net Bangladesh.

During my whole internship, my everyday task was to write any article, news, event, or review any research paper about SRHR and SRHR with Climate change.

Here I'm sharing some screenshots of my assigned work and my deliverables-

Challenges:

- ❖ As it was my first task with the topic, SRHR, I faced so many difficulties during my writing with proper word selection
- ❖ I was not aware of the writing sequence.
- ❖ The targeted audiences are the policymakers and the related stakeholders so I always had to give suggestions to them through the article or news, which was not easy for me.
- ❖ During my task, I could not find enough relevant information. So I had to read many research papers.
- ❖ When I used to search for a writing topic, most of the topics were covered before, so I struggled to choose a topic.

Mistakes:

- I could not maintain the proper sequence in some of my writing.
- At some points I used a few words which do not show the proper meaning.

Learnings:

- Got the chance to learn how to write professionally.
- Learned about the structure for writing any articles and news.
- Learned to write a bold introduction and a suggestive conclusion.
- Learned to work under pressure.
- Learned to work with teams.
- Learned to find appropriate relevant papers.

Project Name: Content translating for the Bangla website of Share-Net Bangladesh

Client: Share-Net Bangladesh

Start date: 19 December 2022

End date: 27 December 2022

Project overview:

Share-Net Bangladesh is going to launch its official Bangla version of Share-Net Bangladesh and that's why they needed to translate their website from July 2022 to December 2022 which is in English. This website has Features, News, Opportunities, Research Materials, Events and many more segments and they wanted the Bangla versions of those published write-ups.

My task and responsibilities: My task was to translate the published items from Share-Net Bangladesh's official website.

Here are some screenshots of this project-

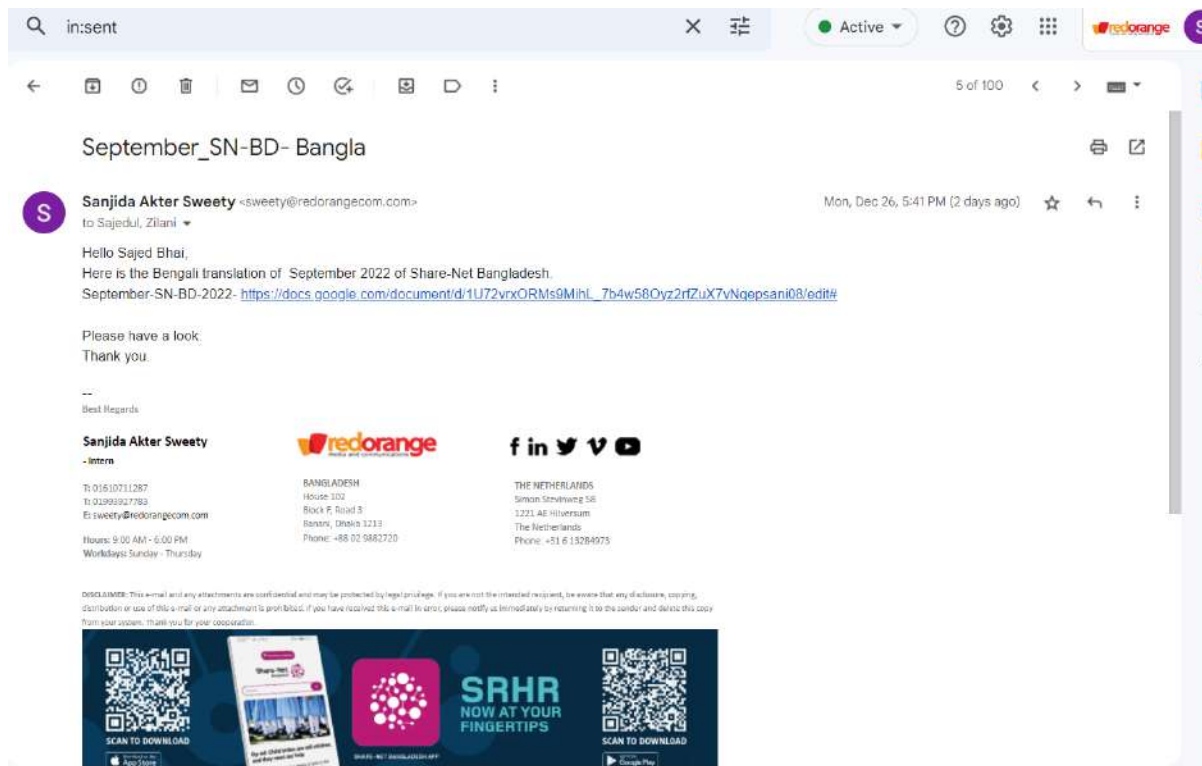

Fig 9.3: Delivering my task for September

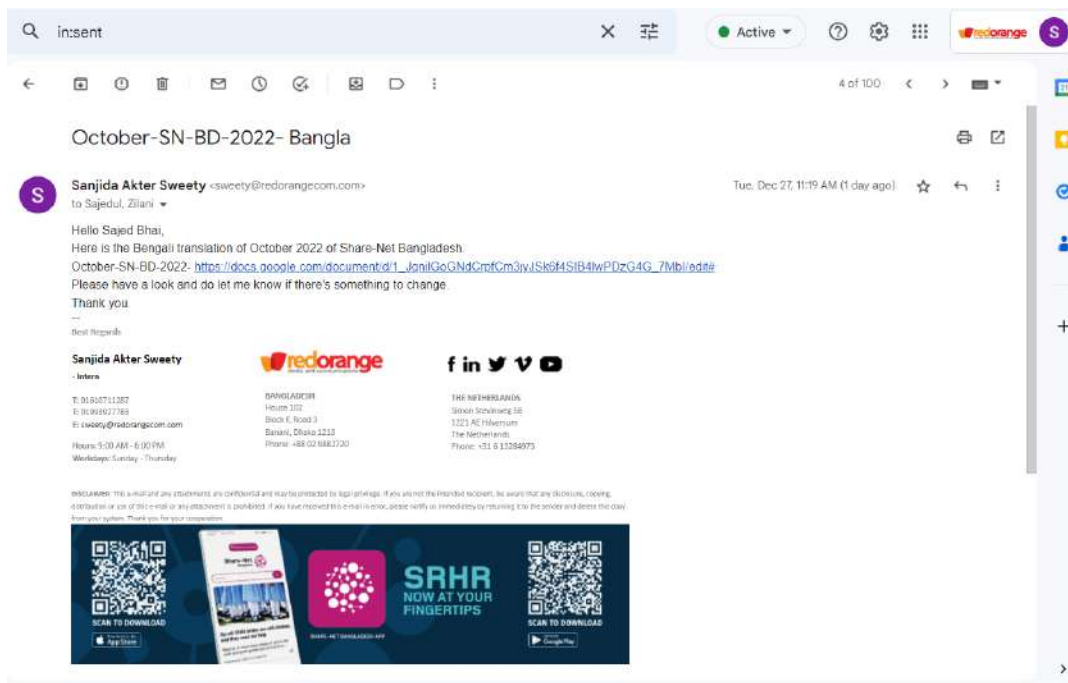

Fig 9.4: Delivering my task for October

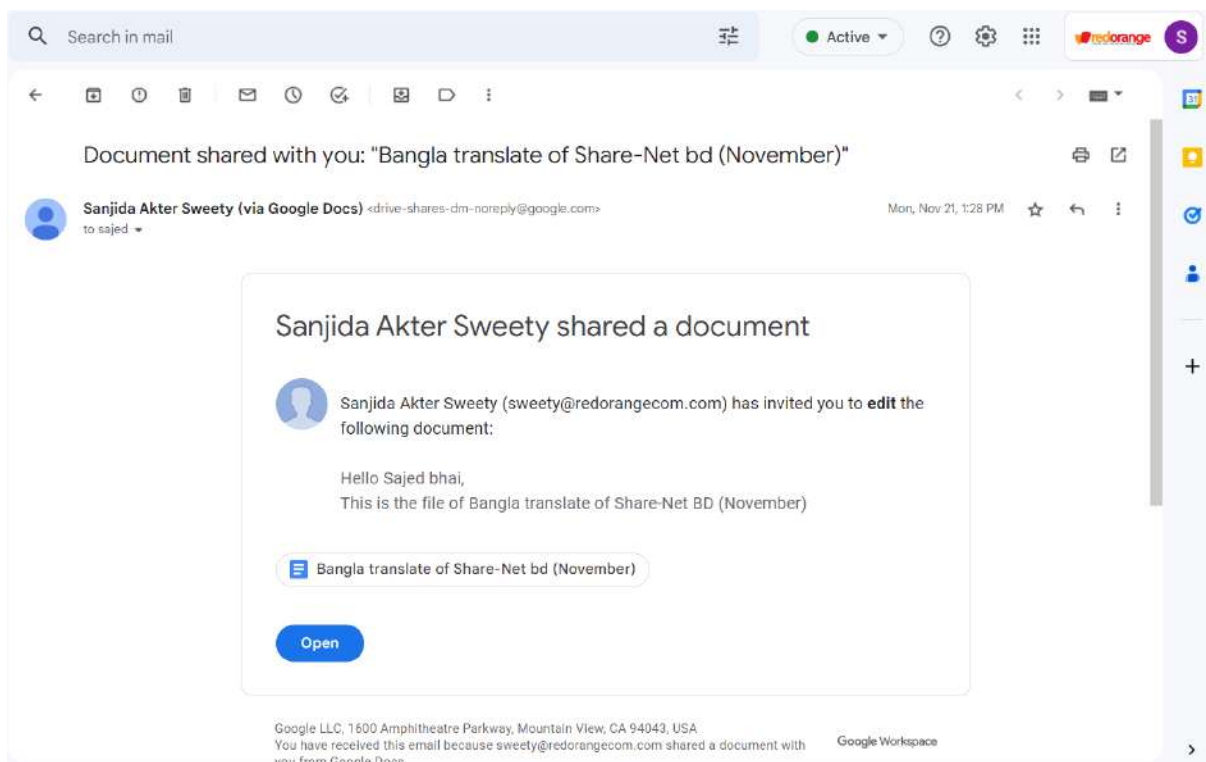

Fig 9.5: Delivering my task for November

Challenges:

- ❖ The main challenge during this work was to manage time. As I had to do other work along with that task which was a bit difficult for me.
- ❖ I faced difficulties to find the appropriate language to translate some terms about Gender and SRHR in Bangla.

Mistakes:

- I misused some words as there were no appropriate Bangla words for some English words.

Learnings:

- Learned so many new terms in Bangla about Gender and SRHR.
- Enhanced skills in translation.
- Improved knowledge about writing features, news, article, event, review research paper, etc

Internship outcome

From the very first day of my University life I always dreamed of working in an office where every person will be so organized, helpful, and hard-working, and the office environment will also be so good that it feels more like home. As every person is gonna spend 8 to 9 hours of their daily lives at the office. Also, I was so excited to work with a team who are skillful and who are already experts in that field, so that they can guide me in the right direction with proper work. Also, it will improve my academic learning and skills.

There are many soft skills and Hard skills I learned during the internship and after finishing my internship I feel like I have gained knowledge and skills in the relevant work field which I'm planning for my future career.

- ★ I developed my Google sheet skills.
- ★ I have developed communication through Mail.
- ★ I have learned to work with a team where everybody has a different perspective.
- ★ I learn to work under pressure where I have to deliver two or three works at the same time.
- ★ I learn to set priorities like which work I have to deliver first.
- ★ I learn to take feedback and comments about my work and then work on those comments to improve my future work.
- ★ I learned to write features and research paper reviews.
- ★ I learned to translate from Bangla to English and English to Bangla.
- ★ I improved my skills to maintain a specific timeline.
- ★ I learned to proofread business plans or presentation slides.
- ★ I learn to write social media captions like Facebook.
- ★ I develop my interpersonal and group communication skills.

Professional Competence

1. **Writing copy:** As an intern, I worked under a content team who wrote video content, features, promotional posts, and News as well.
2. **Interpreting:** During the team works I always had to communicate with different departments and by doing this work I developed my communication skills
3. **Collaboration:** Most of the time my work used to be assigned by someone from other departments and from there I learned to collaborate with colleagues
4. **The capacity for thought:** As I had to write content and scripts for videos or animations and also for feature writing, I used to brainstorm for that.
5. **Effective communication:** RedOrage is an organization where everybody works to prepare effective communications with clients and for clients. From there I learned to do effectively communication
6. **Presentation expertise:** From my organization, I attended a workshop about SBCC where I was the representative of our organization. And I had to present my questions and my understanding in front of everyone. There are many more work events like that. And that's how I improved my presentation skills
7. **Translate copy and add subtitles:** During my three months of internship, most of my assignments were translating English news to Bangla news also I had to make subtitles for human stories and also animation stories
8. **Proofreading:** From the view of a content writer I had to proofread for animators, graphics designers, and business developers, that's how I improved my proofreading skills.

Appendices

Here I want to attach some of my content writings with their edited versions which I could not attach in the projects because these were single and small tasks.

Task 1: Translate English content into Bangla for voiceover and made English subtitles for an animation video of WeCare care project.

Session 7.2

Safe Motherhood and Emergency Obstetric Care (EOC) with specific focus on adolescents, people with disabilities and indigenous groups and the role of FWVs

The session will start with this video. It must give a basic idea about the challenges certain groups of women and girls have to face during and after their pregnancy. This video will make the participants think about neglected and disadvantaged groups, and be a starter to stimulate discussions during the session.

- কার্যকরী স্বাস্থ্য ব্যবস্থা
Effective healthcare system
- দায়িত্বপ্রাপ্তদের জবাবদিহিতা নিশ্চিতকরণ
Ensuring accountability of the responsible authorities
- প্রশিক্ষণ প্রাপ্ত দক্ষ পরিবার কল্যাণ পরিদর্শিকা এবং পরিবার কল্যাণ সহকারী নিয়োগের মাধ্যমে এ পরিস্থিতির উন্নতি করা সম্ভব।

By employing well trained Family Welfare Inspectors and Family Welfare Assistants this situation can be improved.

Task 2: News writing for 16 Days of Activism Against Gender-based Violence

International efforts are being made to end violence against women and girls through the Global 16 Days Campaign. The campaign is held every year from November 25, the International Day for the Elimination of Violence Against Women, through December 10, which is Human Rights Day.

International efforts are being made to end violence against women and girls through the Global 16 Days Campaign. The campaign is held every year from November 25, the International Day for the Elimination of Violence Against Women, through December 10, which is Human Rights Day.

In 1991, the Women's Global Leadership Institute hosted by the Center for Women's Global Leadership (CWGL) at Rutgers University launched the initiative, originally known as the **"16 Days of Activism Against Gender-Based Violence"** campaign. The initiative has attracted participation from over 6,000 groups since 1991, hailing from over 187 nations.

At present time according to some studies, harming more than 1 in 3 women globally, has mainly stayed constant over the past ten years.

The **#MeToo** movement ignited a worldwide mobilization and a sense of urgency five years ago to stop and address violence against women and girls. Since then, owing to the tireless efforts of women's human rights advocates, awareness and momentum have reached previously unheard-of levels.

The theme of Gender-based Violence (GBV) of 2022

This time the movement's theme is **"UNiTE! Activism to end violence against women and girls"** which aims to inspire everyone in our society to join the fight against violence against women and girls, show their support for women's rights advocates, and join feminism movements throughout the globe.

The majority of individuals associate violence with an actual assault or attack. However, there is a far bigger issue with gender-based violence and harassment in both public and private contexts (such as homes). But according to the ILO's 2019 Violence and Harassment Convention (No. 190)-

(a) "violence and harassment" in the workplace refers to a variety of unacceptable behaviors and practices, or threats thereof, whether one-time or repeated, that aim to cause, result in, or are likely to cause physical, psychological, sexual, or economic harm, and includes gender-based violence and harassment.

The scenario of gender-based violence in recent times in Bangladesh

The frequency of violence against women and girls is still quite high in Bangladesh despite several measures. According to a recent report by Bangladesh Mahila Parishad, 3,703 women and girls experienced various types of violence, including rape and murder, between January and December of 2021. Even though Bangladesh has several basic laws protecting victims, there are still extremely few incidences of gender-based violence reported to official organizations like the police and health services.

The Covid epidemic has worsened the risk factors for violence against women and girls globally, and Bangladesh is not exempt from this situation. According to a Manusher Jonno Foundation assessment that spans from April 2020 to September 2021, 48,233 women and children in Bangladesh experienced domestic abuse and other types of violence during the Covid epidemic. It is more important than ever to combat gender-based violence in this scenario.

In order to secure appropriate investment for the most vulnerable, who sorely need help, we thus urge the global community, especially the governments of the respective nations, to act immediately and effectively. Additionally, these operations must be coordinated and time-bound.

Task 3: Feature writing about prenatal education for safe motherhood for Share-Net Bangladesh.

**Is Prenatal education really necessary for safe childbirth?
or
Antenatal education is essential for safe motherhood**

Maternal mortality is a serious public health issue in the majority of developing nations worldwide. This remains one of the greatest obstacles to human progress as a result. Globally, according to estimates from the World Health Organization (WHO), 295,000 women of reproductive age passed away in 2017. Nearly 99% of maternal fatalities were documented in underdeveloped nations, according to a comprehensive assessment. The Sustainable Development Goals (SDGs) state that by 2030, there should be 70 maternal deaths worldwide for every 100,000 live births.

We take pregnancy and delivery for granted. When a woman conceives, we expect she will quickly pick up all the necessary information from her peers. When the combined family was the norm in the past, this could have been the case. But in today's unitary family situation, asking for assistance from one's peers might be challenging.

Health professionals can only provide limited assistance outside of peer support due to the low doctor-to-patient ratio, socio-cultural contexts, and other factors. A mother's sole remaining choice is to discover what is required as the pregnancy develops.

Utilizing antenatal care (ANC) and delivery services as soon as feasible can promote mother health and ensure that newborns have the greatest possible start in life. When pregnant women use health care provided by qualified professionals with the required resources in accordance with advised clinical guidelines, the majority of

Prenatal courses are a system used in developed nations to inform and equip moms with these solutions. These courses do not have a medical focus. Instead, they are led by certified childbirth educators who instruct and mentor new mothers on the fundamentals of a healthy pregnancy, labor, child care, and other topics.

These prenatal programs combine forms of knowledge and scientific proof, whereas peer assistance in Bangladesh is more experience-driven.

Prenatal classes cover a variety of topics, including preparing for pregnancy, adjusting nutrition and exercise while pregnant, knowing the signs of labor, knowing when to seek medical attention and how to handle labor, knowing how labor progresses, knowing about child birth positions, relaxation techniques, postnatal care, caring for a newborn, etc. Multiple seminars covering these subjects would be ideal, and a class of expectant and new moms would be invited to attend.

Prenatal lessons are not just for pregnant women, despite what some people may believe. Instead, anybody contemplating a pregnancy, including a spouse, friend, mom, or sister of a pregnant lady, is welcome to enroll in the sessions to learn more knowledge.

Each pregnancy is unique. This is true, even for a mother who has previously given birth. Therefore, preparation for a good birth requires knowledge of this 40-week journey. A knowledgeable individual is sure about her choices. Knowing everything about the prenatal journey is the initial step to make the birth narrative unforgettable. A happy delivery experience is something a woman treasures for a very long time.

Maternal health care programs should pay special attention to young, pregnant women who are of low socioeconomic position or with less educated husbands in order to boost the use of health services and promote excellent health. In order to understand why pregnant women, regardless of status, migrated from public to
